Acknowledgement

I would like to express my deep sincere gratitude to Prof.Dr. Sasri Punyarachun, Assist.Prof.Dr. Boonson Liawruangrath and Assist. Prof. Suwanna Vejabhikul, my thesis advisors for their advice, supervision and invaluable help during these studies.

I wish to express my thanks to Assoc.Prof.Dr. Viboon and Assoc. Prof.Dr. Nitiya Ratanapanondh for their provision of useful plant samples and to the head of the Forest Herbarium, Royal Forest Department for his help in plant identification.

Finally, without the invaluable supervision of Assist.Prof.Dr. Chaichan Sangdee, Head of Pharmacology Department, Faculty of Medicine and the excellent typing of Miss Duangdern Vichaiwong, this thesis would not be accomplished.
