## ACKNOWLEDGEMENTS

I would like to express my heartfelt gratitude and appreciation to my co-supervisors, Dr. Robert Molloy and Dr. Nipapan Molloy, for their kind supervision, valuable guidance and constant encouragement which proved to be of such inspiration throughout the course of this work.

I also wish to express my sincere gratitude to the Chemistry Department, Faculty of Science, Chiang Mai University, for the provision of laboratory and library facilities which made this study possible, and to the Professor Dr. Buaret Kamtong Foundation for the award of a Graduate Student Study Scholarship.

Last and most of all, I am indebted to my family for their tender love and care and endless encouragement in support of my education.
