## LIST OF TABLES

| TABLE  | PAGE |
|--|------|
| 1. Mean body weights of 4 experimental groups<br>(n = 10 each).....  | 29   |
| 2. Mean obesity indexes of 4 experimental groups<br>(n = 10 each).....   | 32   |
| 3. Mean serum T <sub>3</sub> concentrations of 4 experimental groups<br>(n = 10 each).....                               | 34   |
| 4. Mean serum T <sub>4</sub> concentrations of 4 experimental groups<br>(n = 10 each).....                               | 38   |
| 5. Mean weights of the soleus muscles of 4 experimental groups<br>(n = 9 each).....                                      | 41   |
| 6. Mean weights of the plantaris muscles of 4 experimental groups<br>(n = 9 each).....                                   | 43   |
| 7. Mean isometric twitch tensions of the soleus muscles of<br>4 experimental groups (n = 8 each).....                    | 47   |
| 8. Mean time to peak tensions of isometric twitch of the soleus<br>muscles of 4 experimental groups (n = 8 each).....    | 50   |
| 9. Mean one-half relaxation time of isometric twitch of the soleus<br>muscles of 4 experimental groups (n = 8 each)..... | 52   |
| 10. Force-frequency relationships of the soleus muscles of<br>4 experimental groups (n = 8 each).....                    | 55   |

| TABLE   | PAGE |
|---|------|
| 11. Mean fatigue indexes of the soleus muscles of 4 experimental groups ( $n = 8$ each).....                                  | 59   |
| 12. Mean isometric twitch tensions of the plantaris muscles of 4 experimental groups ( $n = 8$ each).....                     | 62   |
| 13. Mean time to peak tensions of isometric twitch of the plantaris muscles of 4 experimental groups ( $n = 8$ each).....     | 64   |
| 14. Mean one-half relaxation times of isometric twitch of the plantaris muscles of 4 experimental groups ( $n = 8$ each)..... | 67   |
| 15. Force-frequency relationships of the plantaris muscles of 4 experimental groups ( $n = 8$ each).....                      | 69   |
| 16. Mean fatigue indexes of the plantaris muscles of 4 experimental groups ( $n = 8$ each).....                               | 73   |

## LIST OF ILLUSTRATIONS

| FIGURE  | PAGE |
|---|------|
| 1. Diagrammatic illustration of the classification of the experimental groups.....  | 17   |
| 2. A schematic representation of the muscles perparation for studying neurally-evoked contraction.....  | 23   |
| 3. Determination of time to peak tension ,one-half relaxation time and muscle tension from a isometric single twitch of skeletal muscle ..... | 25   |
| 4. Comparison of body weights among 4 experimental groups.....  | 30   |
| 5. Comparison of obesity indexes among 4 experimental groups.....   | 33   |
| 6. Comparison of serum T <sub>3</sub> concentrations among 4 experimental groups.....   | 35   |
| 7. Comparison of serum T <sub>4</sub> concentrations among 4 experimental groups.....   | 39   |
| 8. Comparison of soleus muscle weights among 4 experimental groups.....   | 42   |
| 9. Comparison of plantaris muscle weights among 4 experimental groups.....  | 44   |
| 10. Typical examples of isometric twitches from control, hypothyroid, exercise and hypothyroid-exercise soleus muscles.....                   | 46   |
| 11. Comparison of isometric twitch tensions of soleus muscles among 4 experimental groups.....  | 48   |

| FIGURE  | PAGE |
|---|------|
| 12. Comparison of time to peak tensions of isometric twitch of soleus muscles among 4 experimental groups.....  | 51   |
| 13. Comparison of one-half relaxation times of isometric twitch of soleus muscles among 4 experimental groups.....  | 53   |
| 14. Comparison of force-frequency curves of soleus muscles among 4 experimental groups.....   | 56   |
| 15. Examples of isometric tetanic tensions during repetitive stimulation for 2 minutes from control, hypothyroid, exercise and hypothyroid-exercise soleus muscles..... | 58   |
| 16. Comparison of fatigue indexes of soleus muscles among 4 experimental groups.....  | 60   |
| 17. Typical examples of isometric twitches from control, hypothyroid, exercise and hypothyroid-exercise plantaris muscles.....  | 61   |
| 18. Comparison of isometric twitch tensions of plantaris muscles among 4 experimental groups.....   | 63   |
| 19. Comparison of time to peak tensions of isometric twitch of plantaris muscles among 4 experimental groups.....   | 65   |
| 20. Comparison of one-half relaxation times of isometric twitch of plantaris muscles among 4 experimental groups.....   | 68   |
| 21. Comparison of force-frequency curves of plantaris muscles among 4 experimental groups.....  | 70   |
