## ACKNOWLEDGEMENTS

I wish to express my gratitude to the members of the supervisory committee; Dr. Wittaya Tonsuwonnont, Assistant Professor Dr. Puckprink Sangdee and Associate Professor Sumittra Thongprasert, for their valuable advices and comments.

My sincere gratitude is directed to Dr. Wittaya Tonsuwannont for his kind, helpful guidance, support and valuable encouragement throughout this study.

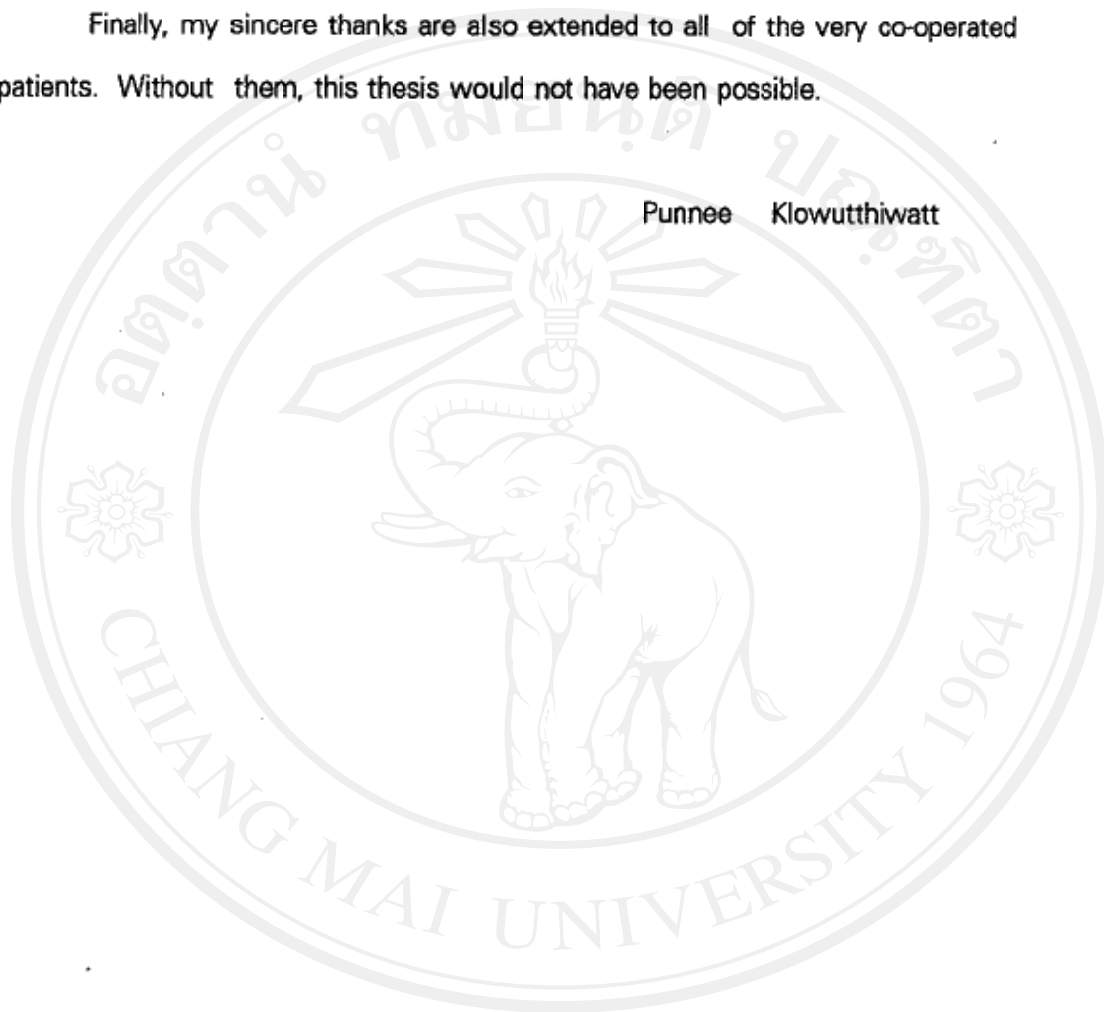

I am very grateful to Assistant Professor Dr. Puckprink Sangdee for her kind, valuable guidance and valuable encouragement. To Associate Professor Sumittra Thongprasert, I wish to express my sincere appreciation for her helpful guidance, supply of drug and clinical assistance. Thanks to staff of The Oncology Department; Ms. Budsaba Atikachai and Ms. Nongyao Promwas for their kind co-operation in blood sample collection and taking care of the patients throughout this study.

I am very grateful to Dr. Sayam Kaewvichit, Associate Professor Ladda Wongpayapkul for their kinds and valuable guidances, and Assistant Professor Wandee Taesotikul for her kind and continuous help.

I also wish to express my thanks to all the staff of the Department of Biopharmacy and Pharmacology for their helps, and thanks for my family and friends for their continuous supports and constructive criticisms.

Finally, my sincere thanks are also extended to all of the very co-operated patients. Without them, this thesis would not have been possible.
