## ACKNOWLEDGMENT

Firstly, I want to express my deepest appreciation to Professor Dr. Sanit Makonkawkeyoon and Assistant Professor Dr. Watchara Kasinrerker, my advisers, for all their excellent guidance, continuous supervision, valuable advice, patience, and their kindest encouragement throughout this study.

I am especially grateful to Assistant Professor Dr. Kriangsak Praputpittaya, Head of the Department of Clinical Immunology, Faculty of Associated Medical Sciences, Chiang Mai University, for his help and valuable advice.

I extend my gracious thanks to Assistant Professor Dr. Porn-ngarm Limtrakul, Department of Biochemistry, Faculty of Medicine, Chiang Mai University, for her generous gifts of all cell lines, to Dr. Wasun Chantratita, Department of Clinical Microbiology, Faculty of Associated Medical Sciences, Chiang Mai University, and Khun Kittipong Rungruengthanakit, Research Institute for Health Sciences, Chiang Mai University, for their valuable advice and encouragement, and to Khun Pramote Naveepongpanit, Nakhonping Hospital for his help in FACScan performing.

I also extend my gracious thanks to Associate Professor Dr. Panja Kullapong, Department of Pediatrics, Faculty of Medicine, Chiang Mai University, for his help in the collection of leukemic blood samples.

I wish to express my thanks to my husband for his financial support throughout my study.

Many thanks are also given to my dear friends and all dear researchers of the Department of Clinical Immunology, Faculty of Associated Medical Sciences, Chiang Mai University, for their help and warm friendship.

Sincere thanks and appreciation are also expressed to Khun Noravit Jitjumnong, Khun Monkolchai Boontanjin and Khun Jakkapob Dhatsuwan for their help in computer art work.

And finally, the undying indebtedness to my mother, brother and sister for their encouragement, teaching the meaning of excellence and their invaluable sacrifices.
