ACKNOWLEDGEMENTS

I would like to express my heartfelt gratitude and appreciation to my supervisor, Dr. Yuthsak Vaneesorn, for his kind supervision, valuable guidance and constant inspiration throughout the course of this research.

I also wish to express my sincere gratitude to the Chemistry Department, Faculty of Science, Chiang Mai University, and its staff members for the provision of laboratory and library facilities which made this study possible. Unforgettable thanks must give to all my friends for their friendly help and encouragement.

Lastly, and most of all, I am indebted to my parents, my sister and my brothers for their tender love and endless encouragement which has enable me to achieve success in my higher education.

Wilailuck Suebpimpawong
