## ACKNOWLEDGEMENTS

I would like to express my heartfelt gratitude and appreciation to my supervisor and co-supervisor, Dr. Robert Molloy and Dr. Nipapan Molloy, for their kind supervision, invaluable guidance and constant inspiration throughout the course of this project.

I also wish to convey my sincere thanks to Dr. Tiwaporn Siriwittayakorn for acting as an Examiner for this project.

I also wish to express my sincere gratitude to Dr. Teerapol Wongchanapiboon for his help in the C-13 NMR sample analyses and in the computer applications.

I am also grateful to Ms. Jantrawan Taweplengsangsuke of the Department of Industrial Chemistry for her guidance and useful suggestions concerning the use of the melt spinning apparatus.

I would like to take this opportunity to thank the Department of Chemistry, Faculty of Science, Chiang Mai University, for kindly providing me with the laboratory and library facilities which made this study possible and also to Dr. P. G. Klein of the School of Materials, University of Leeds, England for carrying out the C-13 NMR sample analyses.

Last and most of all, I am indebted to my family and friends for their tender love, care and endless encouragement which has enabled me to achieve success in my postgraduate education.

Montira Sriyai
