ACKNOWLEDGEMENTS

My sincere thanks to my thesis advisors, Dr. Nopporn Sittisombut, Assist. Prof. Dr. Ampica Mangklabruks and Assoc. Prof. Niwat Maneekarn who devoted so much of their talent and time to guide me throughout this project. I would like to thank Dr. Wasun Chantratita and the late Dr. Kriangsak Praputpittaya for their advice.

I would also like to thank Prof. Dasnayanee Chandanayingyong, Dr. H.A.F. Stephens for providing probes for the HLA-DQA1 and HLA-DQB1 genes and Assist. Prof. Warunee Kunachiwa for her data and Ajarn Donruedee Wongkuttiya for laboratory technical help and thesis results.

Dedicated to my family with love and gratitude.

Kwanjai Viputtigul.
