

## TABLE OF CONTENTS

	Page
Acknowledgement.....	III
Abstract.....	VII
List of tables.....	XIII
List of figure.....	XV
Chapter 1 Introduction	
Background and significance of the problem.....	1
Objectives of the study.....	6
Hypotheses.....	7
Scope of the study.....	8
Definition of the terms.....	8
Chapter 2 Literature review and conceptual framework	
Literature review	
Job stressors and burnout.....	10
Job stressors and burnout in nursing.....	14
Conceptual framework.....	25
Chapter 3 Methodology	
Design of the study.....	29
Population and sample.....	30
Setting.....	32
Protection of subjects' human rights.....	33
Instrumentation.....	34
Data collection procedures.....	38
Data analysis.....	39

Chapter 4 Finding and Discussion

Findings

Demographic data of the subject.....41

Job stressor.....46

Levels of burnout.....56

Relationship between job stressors and burnout..62

Comparison of job stressors among staff  
nurses in four clinical units.....65

Comparison of levels of burnout among  
nurses in four clinical units.....69

Discussion

Job stressor.....71

Levels of burnout.....79

Relationship between job stressors  
and burnout.....81

Comparison of job stressors among  
staff nurses in four clinical units...83

Comparison of levels of burnout among  
nurses in four clinical units.....84

Chapter 5 Conclusion and recommendation

Findings and conclusion.....87

Limitations of the study.....88

Implication of the findings.....89

Recommendations.....93

References.....94

Appendixes

Appendix A: List of experts who validated  
the data collection instrument.....105

Appendix B: Demographic data questionnaire.....106

Appendix C: Nursing Job Stressor Inventory.....108

Appendix D: Maslach Burnout Inventory.....111

Appendix E: Cover letter.....114

Appendix F: Research consent form.....115

Vita.....116

LIST OF TABLES

Table	Page
1	Number of subjects from each clinical units.....32
2	Frequencies and percentage of subjects ineachhospital.....42
3	Demographic characteristics of the subjects.....43
4	Nursing job stressors subscale in rank order.....46
5	Job stressors in rank order in relation to professional and career issue.....48
6	Job stressors in rank order in relation to workload and time pressure.....50
7	Job stressors in rank order in relation to resources and environment problems.....51
8	Job stressors in rank order in relation to nursing care and patient interaction.....52
9	Job stressors in rank order in relation to interpersonal relationship and management issues..54
10	Means and standard deviation for burnout.....56
11	Frequency and percentage of staff nurses by level of burnout.....58
12	Scores for emotional exhaustion subscales of MBI in rank order.....59
13	Scores for depersonalization subscale of MBI in rank order.....60

XIV

14 Scores for reduced personal accomplishment subscale  
of MBI in rank order.....61

15 Relationships between job stressors and burnout  
among staff nurses: Pearson's correlation Matrix..63

16 Means, standard deviations and test of significance  
of total job stressor score and subscale scores  
by clinical units.....66

17 Means and test of significance of total burnout scores  
and subscale scores by clinical units.....69
