1. INTRODUCTION	1
2. LITERATURE REVIEW	3
2.1 Population Supporting Capacity and Adaptive Strategies	3
2.2 Geographic Information System (GIS)	5
2.3 Spatial Information System and Land Use Classification	6
2.3.1 <i>Aerial Photograph and Displacement Errors</i>	8
2.3.2 <i>Orthophoto of an Aerial Photograph</i>	9
3. MATERIALS AND METHODS	11
3.1 Study Area	11
3.2 The Study Framework	11
3.3 Aerial Photograph Interpretation	12
3.3.1 <i>Scanning Aerial Photographs</i>	15
3.3.2 <i>Geocoding Digital Photo Image</i>	15
3.3.2.1 <i>Collecting Ground Control Points</i>	16
3.3.2.2 <i>Creating an Empty Tic Coverage</i>	18

3.3.2.3	<i>Register and Resection the Aerial Photo Image</i>	18
3.3.2.4	<i>Orthophoto an Aerial Photo Image</i>	19
3.3.3	<i>Digital Orthophoto Mosaic</i>	19
3.3.4	<i>Orthophoto Interpretation and Land Use Classification</i>	20
3.4	Land Use Change Detection	20
3.5	Assessment of Rice Sufficiency Level	21
3.5.1	<i>Upland Rice Supporting Capacity</i>	21
3.5.2	<i>Paddy Rice Supporting Capacity</i>	21
3.5.3	<i>Average Amount of Subsistence Rice Need</i>	21
3.6	Crop Cutting	22
3.7	Informal and Formal Survey	22
4.	RESULTS AND DISCUSSION	25
4.1	The Communities	25
4.2	Household Labor, Land Holding, and Farm Practice	27
4.3	Land Use and Land Use Changes	30
4.3.1	<i>Orthophoto Mosaics and Interpretable Characteristics of Land Use Types</i>	30
4.3.1.1	<i>Orthophotograph and Mosaicking</i>	30
4.3.1.2	<i>Interpretable Characteristics of Land Use Types</i>	35
4.4	Land Use Changes	43
4.5	Rice Productivity	45
4.5.1	<i>Crop Cutting</i>	45
4.5.2	<i>Yield Components</i>	47
4.5.3	<i>Rice Productivity: Result from the Formal Survey</i>	47
4.6	Rice Consumption	48

4.7 Rice Sufficiency Level	48
4.8 Adaptive Strategies	51
<i>4.8.1 Off-farm Employment</i>	51
<i>4.8.2 Rice Bank and Other Rice Sources</i>	52
<i>4.8.3 Animals Trade</i>	52
<i>4.8.4 Cash Crops</i>	52
<i>4.8.5 Increase Rice Productivity</i>	53
4.9 Rice Supporting Capacity of the Study Area	54
4.10 Scenario Analysis	57
4.11 Alternative Development Plan	59
5. CONCLUSION	63

APPENDIX	71
Appendix A	72
Curriculum Vitae	76

List of Tables

Table	Page
3.1 Selected aerial photographs number for 1954 and 1983.	15
3.2 Number of total households and sample size in study villages.	23
4.1 Population in Watchan, 1993.	25
4.2 The thinness ratio values of different land use patterns in 1954 and 1983.	36
4.3 The DN value of major land use types in 1983.	37
4.4 Entropy value of 4 major land use type in 1983.	38
4.5 Land use distribution and changes in the study area between 1954 to 1994.	44
4.6 Paddy rice varieties found in Watchan, 1993 growing season.	45
4.7 Upland rice varieties found in Watchan, 1993 growing season.	46
4.8 Estimated rice yield in 1993 growing season.	47
4.9 Rice yield component analysis in Watchan, 1993 growing season.	47
4.10 Severity of causes that contributed to rice deficiency in Watchan.	50
4.11 Frequency of causes that contributed to rice deficiency in Watchan.	50
4.12 Adaptive strategies of farmers to cope with rice deficit problem.	51
4.13 Off-farm employment and wage rates in Watchan.	52
4.14 The methods applied to increase paddy rice output.	53
4.15 The methods applied to increase upland rice output.	54
4.16 Data and sources used for determining rice supporting capacity.	54
4.17 Comparison of data obtained from different sources.	57
4.18 Scenario analysis on rice supporting capacity in 1954, 1983, 1994, and 2000.	58

List of Figures

Figure	Page
2.1 Strips of aerial photographs.	8
3.1 The study area.	12
3.2 The study framework.	13
3.3 The process for estimating rice area and its change.	14
3.4 GPS differential correction.	17
4.1 Paddy area owned by farmers in 1993.	28
4.2 Upland rice area owned by farmers in 1993.	29
4.3 Correlation between number of upland rice plots owned by a farmer and the fallow period.	29
4.4 GCPs distribution over an original aerial photograph.	31
4.5 An orthophoto image.	32
4.6 Orthophoto mosaic of two adjacent aerial photo images.	33
4.7 Manual photo mosaicking without orthophotograph.	33
4.8 Orthophoto image of the study area in 1954.	34
4.9 Orthophoto image of the study area in 1983.	35
4.10 Orthophoto image and on-screen digitized features.	49
4.11 The land use map of Watchan in 1954 as classified from aerial photographs.	40
4.12 The land use map of Watchan in 1983 as classified from aerial photographs.	41
4.13 The land use map of Watchan in 1994 as classified from Landsat TM.	42
4.14 Number of households experiencing different probability of rice deficiency.	49
4.15 Scenario analysis of rice supporting capacity and the projected population during 1954 to 2000.	59
4.16 Scenario analysis of rice supporting capacity and the projected population during 2000 to 2020 using paddy rice yields from improved management practices.	61

List of Abbreviations

DOD	=	Department of Defense
DPI	=	Dot per inch
GCP	=	Ground Control Point
GIS	=	Geographic Information Systems
GPS	=	Global Positioning System
LAN	=	Local Area Network
PC	=	Personnel computer
RS	=	Remote Sensing
TIN	=	Triangulated Irregular Network
