ACKNOWLEDGMENTS

The author would like to express his gratitude to the Deutsche Gesellschaft for Technische Zusammenarbeit (GTZ) for providing a scholarship for him to pursue the international Master Degree program in Environmental Risk Assessment (ERA) at Chiang Mai University.

The author's special thankfulness is expressed to his thesis supervisor, Assoc. Prof. Dr. Maitree Suttajit, Department of Biochemistry for his helpful guidance, valuable suggestion and constant encouragement throughout this thesis study as well as to his co-advisors Assoc. Prof. Prasit Tharavichitkul, Assoc. Prof. Dr. Nongnuch Vanittanakom, Assoc. Prof. Dr. Nuanchan Chittasobhon, Department of Microbiology, Faculty of Medicine and Assist. Prof. Morakot Sukchotiratana, Department of Biology, Faculty of Science for their academic and technical guidance and excellent teaching on bacteriology and mycology.

The author's heartfelt appreciation is expressed to the Department of Microbiology, Faculty of Medicine for providing him with privileged research facilities, and extended to Assist. Prof. Dr. Sumalee Pruksakorn, Assist. Prof. Pojana Sriburee, Mr. Somtop Wanastian, Mr. Treepet Wanalak and other teachers, technicians , staffs, and students in this Department for their kind teaching, help and patience. These thanks also go to all staff, teachers, and technicians in the Department of Biochemistry for their kind help and encouragement.

The author would like to thank the academic staff of the ERA program for their great assistance, kind help and persist encouragement.

The author's thanks go to Dr. Nakachi, Japan for providing the air sampler and plastic plates and Dr. Uraporn Sardsud., Dr. Arayar Jatisatienr, Department of Biology for their kind help. The special thanks are also to the staffs in the photography section of Faculty of Medicine for providing photography services .

The author wishes to thank Miss Siriporn Hassarangsee for her kind help in author's field trip. These thanks also go to all of his classmates in ERA Program for their kind help , understanding , and encouragement.

In closing, his deep indebtedness goes to his mother, brothers, sisters, whose love, understanding, encouragement and patience have inspired him through the course of his study as well as the preparation and presentation of this thesis.
