ACKNOWLEDGEMENTS

I am very grateful to my thesis advisor, Assistant Professor Dr. Sumalee Pruksakorn, for her valuable advice, criticisms, and encouragement throughout my study.

I would like to thank Associate Professor Dr. Niwat Maneekarn and Assistant Professor Dr. Pichart Uparanukraw for their kindness, helpful guidance, advice and discussion in my study.

I would like to thank Associate Professor Prasit Tharavichitkul and the instructors in the Department of Microbiology for their general advice and discussion.

I would like to thank Dr. Elizabeth A. Talbot, MD. for her valuable correction of my English in thesis writing.

Finally, special and important persons who have understood and encouraged me to carry on my study successfully are my parents, my sister and my brother. I would like to thank them for everything.

Piyaorn Samerwong.
