## ACKNOWLEDGEMENT

I would like to convey my deepest and most sincere gratitude to my advisor, Associate Professor Dr. Watchara Kasinrerker, for his valuable guidance, continuous discussion and encouragement throughout my study. His kindness and understanding will be remembered forever.

My great appreciation is also expressed to all staff members of the Department of Clinical Immunology, Faculty of Associated Medical Sciences, Chiang Mai University.

I extend gracious thanks to Khun Pramote Naveewongpanit, Nakhonping Hospital; Khun Samart Sribumrungsunti, Department of Pathology, Faculty of Medicine; Khun Jirapapa Vipasa and Khun Doungnapa Kingkaew, Research Institute for Health Sciences, Chiang Mai University, for their help in FACScan and  $\beta$ -radioactivity counter performing.

Very many thanks go to Ajarn Preeyanat Vongchan, Khun Niramontokrassinwit, Khun Ratre Chumkeaw, and all dear researchers at the Department of Clinical Immunology, Faculty of Associated Medical Sciences, Chiang Mai University; and I wish to extend my special appreciation to the board of directors and management of McCormick Hospital for allowing me to study for this degree.

My heart feels thanks go to my father, mother and everyone in my family for showing their patience and encouragement throughout my study.

This work was supported by a grant of the National Research Council of Thailand.

Ponrut Phunpae
