#### ACKNOWLEDGEMENT

I would like to express my sincere appreciation to my major thesis advisor, Assistant Professor Dr. Seepan Kantawang, for her thoughtful help, guidance and encouragement and careful attention in all aspects of the study. Appreciation is also given to Associate Professor Wanwilai Chumpirom, co-advisor, Assistant Professor Wimon Tanasuwan, academic advisor, Professor Su Zuyou, Chinese advisor, for their guidance and assistance. In addition, I would like to contribute my appreciation to Associate Professor Zhu Yanli, the Dean of Faculty of Nursing, Sun Yat-sen University of Medical Sciences for her help and support during my study.

I am grateful to the nursing experts from Chiang Mai University and Sun Yat-sen University of Medical Sciences for their help in validating content of the instruments for data collection. I am also grateful to those who have offered constructive and valuable suggestions to my research, especially the members of my proposal defense. Appreciation is also given to Assistant Professor Wilawan Senaratana, Assistant Professor Dr. Achara Sukonthasarn, who are my thesis examiners, for their helpful comments and

suggestions.

Special words of gratitude are extended to people who support me through out my study, including my dear colleagues in Faculty of Nursing, Sun Yat-sen University of Medical Sciences, the staff in Faculty of Nursing, Chiang Mai University, Thai friends, and POHNED friends.

Further thanks is extended to Chiang Mai University and Xi'an Medical University for providing me with the opportunity for the study. A sincere thanks is also extended to China Medical Board of New York for providing financial support for this study, and all children and their parents who participated in this study.

Finally, I wish to express my love and appreciation to my family members, especially my fiancée, my sisters, and my father. I also want to express my love to my mother who died during my study. Without their love, support and encouragement, I would never have been able to accomplish my study.
