

TABLE OF CONTENTS

| | Page |
|---|------|
| Acknowledgement. | .III |
| Abstract. | V |
| Table of contents | X |
| List of tables. | XIV |
| List of illustrations. | XVI |
| Chapter 1 Introduction | |
| Background and significance of research problem. 1 | |
| Objectives of the study. | 9 |
| Research questions. | 10 |
| Scope of the study. | 11 |
| Assumptions | 11 |
| Definition of terms | 12 |
| Chapter 2 Literature review and theoretical framework | |
| Overview of factors contributing to cesarean | |
| section occurrence. | 14 |
| Theory of reasoned action | 19 |
| Attitude toward having cesarean section. | 25 |
| Attitude and intention to have cesarean section.33 | |
| Subjective norm and intention to have cesarean | |
| section. | 38 |
| Summary of literature review. | .41 |
| Theoretical framework. | 42 |

| | Page |
|---|------|
| Chapter 3 Methodology | |
| Design of the study. | 44 |
| Population and sample. | 44 |
| Instrumentation. | 45 |
| Data collection procedure. | 50 |
| Analysis of data | 51 |
| Chapter 4 Findings and Discussion | |
| Demographic characteristics and obstetrical | |
| Information of the subjects | 54 |
| Attitudes toward having cesarean section. | 56 |
| Subjective norms related to having cesarean | |
| section | 58 |
| Intentions to have cesarean section. | 60 |
| Difference in attitudes toward having cesarean | |
| section between intenders and nonintenders. | 61 |
| Difference in subjective norms related to | |
| having cesarean section between intenders | |
| and nonintenders. | 63 |
| Relationship between attitudes and intentions | |
| to have cesarean section. | 64 |
| Relationship between subjective norms and | |
| intentions to have cesarean section. | 64 |
| Relationship among attitudes, subjective norms | |
| and intentions to have cesarean section. | 64 |

| | Page |
|---|------|
| Discussion | |
| Sample characteristics. | 67 |
| Attitudes toward having cesarean section. | 68 |
| Subjective Norms related to having cesarean section | 71 |
| Intentions to have cesarean section. | 73 |
| Difference in attitudes toward having cesarean section between intenders and nonintenders. | 75 |
| Difference in subjective norms related to having cesarean section between intenders and nonintenders. | 78 |
| Relationship between attitudes and intentions to have cesarean section. | 79 |
| Relationship between subjective norms and intentions to have cesarean section. | 82 |
| Relationship among attitudes, subjective norms and intentions to have cesarean section. | 84 |
| Chapter 5 Conclusions and recommendations | |
| Conclusions. | 86 |
| Implications of findings. | 88 |
| Limitation of the study. | 90 |
| Recommendations for further study. | 91 |
| References | 93 |

| Appendices | |
| Appendix A Instrument. | .103 |
| Appendix B Verbal explanation and informed consent. | .107 |
| Appendix C A letter to validator. | .109 |
| Appendix D Calculation of sample size. | .110 |
| Appendix E Table 10. | .111 |
| Appendix F Table 11. | .112 |
| Appendix G Table 12. | .113 |
| Appendix H Table 13. | .114 |
| Appendix I List of experts. | .115 |
| Curriculum Vitae. | .116 |

LIST OF TABLES

| Table | | Page |
|---------|--|------|
| Table 1 | Frequencies and percentages of demographic characteristics and obstetrical information of the subjects. | 55 |
| Table 2 | Means, standard deviation, and range of attitudes of the subjects. | 57 |
| Table 3 | Frequencies and percentages of attitudes level of the subjects. | 58 |
| Table 4 | Means, standard deviation, and range of subjective norms of the subjects. | 59 |
| Table 5 | Frequencies and percentages of subjective norms level of the subjects. | 59 |
| Table 6 | Frequencies and percentages of intentions of the subjects. | 60 |
| Table 7 | Descriptive statistics of attitudes toward having cesarean section between intenders and nonintenders and P values for t-test of the mean difference. | 62 |
| Table 8 | Descriptive statistics of subjective norms related to having cesarean section between intenders and nonintenders and p values for t-test of the mean difference. | 63 |

| Table | Page |
|--|------|
| Table 9 | |
| Multiple regression analysis of intentions to have cesarean section on attitudes, and subjective norms. | .66 |
| Table 10 | |
| Standard error and confident interval of attitudes and each item of attitudes of the subjects. | 111 |
| Table 11 | |
| Standard error and confident interval of subjective norms and each item of subjective norms of the subjects. | .112 |
| Table 12 | |
| Pearson Product-Moment correlations between each item of attitudes and intentions to have cesarean section. | 113 |
| Table 13 | |
| Pearson Product-Moment correlations between each item of subjective norms and intentions to have cesarean section. | 114 |

LIST OF ILLUSTRATIONS

| Figure | | Page |
|----------|---|------|
| Figure 1 | The Ajzen-Fishbein Theory of Reasoned Action. . . | .21 |
| Figure 2 | Factors determining a women's intentions to have cesarean section. | .43 |
