## ACKNOWLEDGEMENTS

The author would like to express her heartfelt gratitude and appreciation to Assistant Professor Dr. Mongkon Rayanakorn, her supervisor, for his kind supervision, invaluable guidance and constant inspiration throughout the course of this research work.

The author is deeply grateful to both Assistant Professor Dr. Surasak Watanesk and Assistant Professor Dr. Yuthsak Vaneesorn for their helpful guidance and advice, particularly during the preparation of this thesis.

The author is very much indebted to Acharn William Prewett of the Department of Geology of Chiang Mai University for supplying geological reference materials and providing relevant information to the author. To Associate Professor Dr. Kate Grudpan, the author is deeply grateful for his useful general advice. To Dr. Ponlayuth Sooksamiti of the Mineral Resources Center (Region 3-Chiang Mai), the author gratefully acknowledges his helpful suggestion and a loan of a teflon beaker.

The author is very much indebted to Archemica International (Thailand) Co., Ltd. for letting her use a IonPac CS5 column

The author gratefully acknowledges the Department of Chemistry of Chiang Mai University for the provision of excellent laboratory facilities and its technical staff, especially Mr. Pisan Kitsawatpaiboon, for the admirable technical service.

The author is profoundly grateful to her parents for their tender love, continual care and encouragement during the preparation of this thesis.

Finally, the author would like to thank those whose names are not here listed, and those who have one way or another contributed to the success of this work.
