ACKNOWLEDGEMENT

The author would like to express her sincere appreciation and gratitude to her thesis supervisor, Assoc. Prof. Dr. Prasak Thavornyutikarn, for his valuable advice in this thesis.

The author is also very grateful to Assoc. Prof. Dr. Duang Buddhasuk for his help concerning the technique in vacuum distillation.

The author would like to thank Miss Nopawan Auchariyapitak for her advice in this thesis.

The author would like to thank the staff of Department of Chemistry, Faculty of Science, Chiang Mai University for making this study possible

The author is also very grateful to Mr. Nakorn Phasang for his help, encouragement and motivation to overcome the hardship throughout the study period. Last and most of all, the author would like to give this successful study as a most proud gift for the parent and brothers.
