### Acknowledgements

I would like to express my sincere gratitude and appreciation to my supervisor, Associate Professor Dr. Benjavun Ratanasthein for her advice, guidance, and encouragement throughout the course of my study. I am also indebted to Dr. Wittaya Kandharosa, my advisor for his advice and help in improving the quality of this thesis. Assistant Professor Dr. Sampan Singharajawarapan is highly appreciated for his valuable insight and critical reading of the manuscript.

I am grateful to Unocal (Thailand) for the permission to access some information of the Pattani Basin and for the cutting samples. Special recognition and thanks are due to the staff of Exploration Department of the company.

I also wishes to express my appreciation to all members of the Department of Geological Sciences, Chiang Mai University whose supports during sample preparation are very important for the research. Particular thanks are due to Mr. Pipobe Robpiree, thin section laboratory staff for his help with laboratory techniques.

Finally, I would like to thank Mr. Kriengkrai Laowapong for his kindest help and support. This thesis can not be completed without the help and encouragement of my parent and other people who put up so much efforts to me as well.
