## ACKNOWLEDGEMENT

I would like to express my grateful appreciation and sincere thanks to my chairperson and major advisor Assistant Professor Dr. Achara Sukonthasarn, for her scholarly guidance, encouragement, and support throughout this research study. An equal thanks goes to Assistant Professor Sudarat Sittisombut, my co-advisor and Professor Pan Cheng-en, my advisor in Xi'an Medical University, for their kindness support and understanding. I wish to thank my committee members for their valuable suggestions.

My sincere appreciation is extended to Associate Professor Dr. Huang Jiefu, the president of Sun Yat-sen University of Medical Sciences (SUMS), Assistant Professor You Liming, the Dean of the Faculty of Nursing of SUMS, and Associate Professor Zhang Zhenlu, the director of Nursing Department of the First Affiliated Hospital of SUMS, for recommending me to enter this program and providing support and help throughout my study. Also, I would like to thank Assistant Professor You Liming, for face validating the Chinese version of instruments.

I would like to extent my gratitude to the administrators of Nursing Department, head nurses and nursing staff at Hepatobiliary Department of the First Affiliated Hospital and Cancer Center of SUMS, for their

support throughout this study. I also want to express my sincere thank to all patients who participated in this study. Without their support and cooperation, this study would not have been success.

Very special thanks is extended to my husband Mr. Jiang Shaohua, for his love, understanding, encouragement, and support, which help me accomplish this program. My deep thanks goes to my parents, parents in law, sister and brother in law, without their great support and encouragement, I would never complete this study.

Finally, China Board of New York Inc. is acknowledged for providing financial support throughout the program.
