ACKNOWLEDGEMENT

I wish to express my grateful appreciation to my advisor, Assoc. Prof. Dr. Duangta Kanjanapothi for the excellent instruction, guidance, encouragement and understanding during the various stage of this research and helpful criticism in the writing of this manuscript. I am deeply indebted and grateful to my co-advisor: Assoc. Prof. Dr. Ampai Panthong for her initiating ideas, supervision, encouraging guidance, criticism and valuable suggestions throughout this study. Special thanks to Asst. Prof. Dr. Tawat Taesotikul for his initiating ideas, supervision, helpful guidance in laboratory techniques, statistical analysis of the results and computer graphic.

Deep appreciations are especially extended to the staff of the Chulabhorn Research Institute Research, Center at Chiang Mai University for their enormous help and cooperation, to Dr. Chaoyong Rujjanawate for his helpful guidance in laboratory techniques and statistical analysis of the results, and to Mrs. Doungporn Amornlerdpison and Mrs. Ratchanee Somwong for their general assistance during this study.

A financial support from Chulabhorn Research Institute Research Center at Chiang Mai University is gratefully.

Kesaraporn Wanajak
