ACKNOWLEDGEMENTS	iii
ABSTRACT	iv
LIST OF TABLES	xi
LIST OF FIGURES	xii
ABBREVIATIONS	xiii
INTRODUCTION	
- Pain, inflammation and fever	1
- Animal models used in the present study	12
- Literature review of <i>Diospyros variegata</i> Kruz.	15
- Purpose of the study	17
MATERIALS AND METHODS	
- Plant material	18
- Preparation of the extract and fractions	18
- Experimental animals	19
- Drug administration	20
- Analgesic test	
- Writhing response in mice	20
- Tail-flick test	21
- Formalin test	23
- Anti-inflammatory test	

	PAGE
- Ear edema-induced in rats by ethyl phenylpropiolate (EPP) and arachidonic acid (AA)	24
- Antipyretic test	26
- Statistic analysis	29
- Drugs and chemicals	29
RESULTS	
- Preliminary screening	31
- Analgesic activity	
- Acetic acid-induced writhing response in mice	33
- Tail-flick test	37
- Formalin test	39
- Anti-inflammatory activity	
- Ear edema-induced in rats by ethyl phenylpropiolate (EPP) and arachidonic acid (AA)	44
- Antipyretic activity	48
DISCUSSION	52
REFERENCES	63
VITA	71

LIST OF TABLES

TABLE	PAGE
1. Effect of aspirin, morphine and crude methanol extract from <i>D. variegata</i> on acetic acid-induced writhing response in mice	32
2. Effect of aspirin, morphine as well as hexane and methanol fractions of <i>D. variegata</i> on acetic acid induced writhing response in mice	34
3. Effect of aspirin, morphine as well as hexane and methanol fractions of <i>D. variegata</i> on the tail-flick in rats	38
4. Effect of aspirin, morphine as well as hexane and methanol fractions of <i>D. variegata</i> on the early phase of formalin test in mice	40
5. Effect of aspirin, morphine as well as hexane and methanol fractions of <i>D. variegata</i> on the late phase of formalin test in mice	41
6. Effect of topical application of phenylbutazone, hexane and methanol fraction of <i>D. variegata</i> on ethylphenylpropiolate-induced ear edema in rats	46
7. Effect of topical application of phenylbutazone, phenidone as well as hexane and methanol fraction of <i>D. variegata</i> on arachidonic acid-induced ear edema in rats	47
8. Effect of aspirin, hexane and methanol fractions of <i>D. variegata</i> on yeast-induced hyperthermia in rats	50

LIST OF FIGURES

FIGURE	PAGE
1. Scheme of the major metabolic transformation of arachidonic acid	10
2. Leaves and fruit of <i>Diospyros variegata</i> Kruz.	16
3. Preparation of hexane and methanol fractions	19
4. Diagram illustrating the method for the tail-flick test	22
5. Diagram illustrating the method for the formalin test (early phase)	25
6. Diagram illustrating the method for the formalin test (late phase)	25
7. Diagram illustrating the method for yeast-induced hyperthermia	28
8. Histogram of the inhibitory effect of aspirin, morphine as well as hexane and methanol fractions of <i>D. variegata</i> on acetic acid-induced writhing response in mice	35
9. Log dose-response regression line of aspirin and hexane fraction of <i>D. variegata</i> on the acetic acid-induced writhing response in mice	36
10. Log dose-response regression line of aspirin and hexane fraction of <i>D. variegata</i> on the formalin test in mice (late phase)	42
11. Effect of aspirin, hexane and methanol fractions of <i>D. variegata</i> on yeast-induced hyperthermia in rats	51
