## ACKNOWLEDGEMENTS

This thesis could not have been completed without the valuable guidance of my chief advisor, Assoc. Prof. Dr. Ampai Panthong, to whom I am obliged.

I deeply express my sincere gratitude to Assoc. Prof. Dr. Duangta Kanjanapothi, Asst. Prof. Dr. Tawat Taesotikul for their suggestions during this study.

My thanks are also due to staff of Laboratory for Natural Product Research, Chulabhorn Research Institute, Chiang Mai University, for their advice and assistance.

Finally, I wish to thank my mother for a biggest moral support.

SUPAPORN TRONGSAKUL
