ACKNOWLEDGEMENTS

I wish to express my gratitude and appreciation to Dr. Jaroon Jakmune, my advisor and Associate Professor Dr. Kate Grudpan, my supervisor, for their kind suggestion, encouragement and invaluable guidance throughout my study.

I wish to acknowledge Regional Medical Sciences center, Chiang Mai, for giving me the opportunity and laboratory facilities to carry out some parts of this thesis. I would like to express my sincere thanks to Ms. Pilathuk Srisawat and my colleagues for their encouragement.

I would like to express my gratitude to all of my lecturers, Department of Chemistry, Faculty of science, Chiang Mai University, for their invaluable knowledge that made my study successful. I am also grateful to Ms. Thanaporn Na Chiang Mai and her colleagues for the assistance in using equipment and facilities which made this study possible.

I would also like to say special words of thanks to Mr. Somchai Lapanantnoppakhun, Mr. Wiboon Praditweingkum, Dr. Ngarmnet Worakijcharoenchai, Mr. Nitirat Chimnoi and Mr. Pattanapong Ampan for their assistance and helpful discussion.

Finally, I would like to express grateful to my family and Mr. Korakot Tipparat for their tender love, understanding and encouragement.

Prapatsorn Intamoon
