ACKNOWLEDGEMENTS

The author wishes to express his sincere thanks and appreciation to his supervisor, Asst. Prof. Dr. Mongkon Rayanakorn, for his kind supervision and encouragement throughout this research work. The author also would like to extend his sincere thanks to the following :

To Mr. Pisan Kitsawatpaiboon, for his technical suggestion on GC and admirable service throughout this research work.

To Miss Benjawan Suesat, for her love and encouragement throughout this research.

To all of the author's friends at Chiang Mai University, for their help in the laboratory and during the thesis preparation.

The author wishes to especially acknowledge Miss Daranee Chokchaichamnankit for her encouragement throughout this research and preparation of the thesis manuscript.

To the Chemistry Department of Chiang Mai University and Chulabhorn Research Institute, the author is grateful for giving him an opportunity to pursue this research to a success.

To Assoc. Prof. Dr. Supanna Techasakul of Kasetsart University and Dr. Assoc. Prof. Apichart Suksamran of Ramkhamhang University, the author would like to extend his profound appreciation.

The author would like to acknowledge the contribution from the Postgraduate Education and Research Program in Chemistry of the Thai Ministry of University Affairs.

Finally, the author would like to express his deepest gratitude to his parents and sister for all their never fading love and understanding.

Nitirat Chimnoi
