ACKNOWLEDGEMENT

I wish to acknowledge the assistance, I received from Prof. Emeritus Dasnayanee Chandanayingyong, Department of Transfusion Medicine, Faculty of Medicine, Siriraj Hospital, Mahidol University, whose sympathetic interest and accurate knowledge were invaluable, and also the help I have received from her staff, especially Ms. Monchan Sirikong, and Ms. Sudjai Udee.

My sincere appreciation goes to Dr. Henry A.F. Stephens, University College London, for his supply of many valuable primers, suggestions, and help, which I received from him during the course of this study.

Special thanks and a deep appreciation are extended to my advisor, Asst. Prof. Warunee Kunachiwa, for her kindness, patience, attention, helpful assistance during the research and support by devoting so much time to my work.

I acknowledge Robert Kimmins, to whom I am especially indebted for painstakingly proofreading my entire manuscript, which enabled its acceptance for publication through the press at Chiang Mai University.

I wish to express my gratitude to the people who donated blood for my investigations.

Next, I would like to extend my warm thanks to all those in the Faculty of Associated Medical Sciences, Chiang Mai University, especially the Department of Clinical Immunology for their support and understanding.

Finally, I would like to thank all my friends, colleagues and members of my family for their sincere encouragement throughout my study.

If there are any others, whose name I have inadvertently omitted, I would ask them to accept this acknowledgement of my thanks for the kind help they have given.
