ACKNOWLEDGEMENT

I would like to express my gratitude and sincere thanks to several people who made my dream come true. I wish to express my sincere appreciation to my major advisor Assistant Professor, Dr. Ratanawadee Chontawan, for her academic guidance, kindness and support throughout this study. I gratefully acknowledge the valuable guidance, encouragement and support, understanding of my co-advisor Assistant Professor Usanee Jintrawet. Without their help, I would never have accomplished my goal. I would like to express my appreciation to my committee members Associate Professor Wilawan Senaratana, Associate Professor Dr. Sukanya Parisunyakul and Professor Su Zuyou.

I would like to express my sincere appreciation to my home university: Professor Dr. Ba Denian, the president of Peking Union Medical College; Professor Shen Ning, the dean of the school of nursing, Peking Union Medical College, for their encouragement, concern and support throughout the study.

My appreciation is extended to Assistant Professor Seepan Kantawang, Associate Professor Wilawan Pichiansathian, Assistant Professor Suthisa Lamchang, Dr. Wanchai Moongtui, and Dr. Pikul Nantachaipan for their recommendations for my modified questionnaire. Gratitude is also due to the experts in Beijing, Professor Dr. Wei Min,

Professor Li Zheng, and Professor He Zhong for considering the face validity of the Chinese Version of questionnaire. I would further like to extend my thanks to the administrators and head students in the Beijing University of Aeronautics and Astronautics and Beijing Finance and Economy University, Beijing, P. R. China who helped me during the period of data collection. I also wish to thank all students in the two universities who participated in this study.

Further thanks goes to the China Medical Board of New York for providing financial support for the program, and to Chiang Mai University and Xi'an Medical University for providing me with the opportunity to get into this program.

Finally, I wish to express my love and appreciation to my families. To my respected mother and my mother in law, to my dearest sisters and brother for their understanding, love, constant support, and encouragement through out the time. To my sweetest lovely daughter, Meng Meng, for her understanding mom's leaving and always loving me.

At last, to my most beloved husband, Mr. Zhang Ming, for his understanding, sacrifice, valuable guidance, assistance, constant encouragement and emotional support in making this study possible.
