APPENDICES

Appendix A

Informed Consent of Parents

I will ask your child to complete a questionnaire to determine how he perceives himself. The questionnaire takes 15 minutes to complete. It contains 36 simple choice items about attitude and value towards self. Your child will just check " X" at the place of the answer they choose. No names will be recorded.

The information will help nurses and others to plan appropriate nursing care for these epileptic children. Participation in this study is voluntary. There will be no penalty if you decide not to allow your child to participate. Withdrawing from this study at any time will not affect you or the child in any way.

Your child's name will remain confidential. Publications that result from the study will not identify individual children.

Thank you for your cooperation. If you agree for your child to participate, please sign this form:
