ACKNOWLEDGEMENTS

I wish to express my sincere appreciation and high regard for Assistant Professor Dr. Ratanawadee Chontawan, my major thesis advisor, for her extraordinary help and guidance and careful attention in all aspects of the study. I am very grateful to have had the opportunity to study under her guidance. Appreciation is also given to my co-advisor, Assistant Professor Malee Urharmnuay for her guidance and assistance. Meanwhile, I gratefully acknowledge help and support provided by Professor Shao Wei-wei, Dean of the Faculty of Nursing, Xi'an Medical University, Professor Liu Xiao-hong from the Pediatric Department of the First Teaching Hospital of Xi'an Medical University, Professor Cheng Zheng-qi from the Pediatric Department of the Second Teaching Hospital of xi'an Medical University. Very special thanks go to my parents and husband for their great support and understanding of my study. Finally, the appreciation is also given to China Medical Board of New York for providing financial support for this study.

Wang Xiaoqin
