**ACKNOWLEDGEMENT**

I would like to express my deep and sincere appreciation to my chairperson and major advisor Assistant Professor Dr. Achara Sukonthasarn, for her thoughtful scholarly guidance, encouragement, and support throughout the study. An equal thanks goes to Assistant Professor Dr. Khanokporn Sucamvang, my co-adviser, for her kindly support, scholarly guidance, and careful attention to all aspects of the study.

Special appreciation is also given to Associate Professor Marayart Na Nakorn, my academic adviser in Chiang Mai University, for her thoughtful guidance and support when I was studying in Chiang Mai University. I would also like to express my sincere appreciation to Professor Wang Yong, my adviser in Xi'an Medical University, and Professor Zhang Shaokang, statistic expert in Shanghai Medical University, for their scholarly guidance and help during my research process.

I am very grateful to the nursing experts at Faculty of Nursing, Chiang Mai University, Thailand, for reviewing my research instruments and giving suggestion.

My sincere appreciation is extended to Professor Yao Tai, the president of Shanghai Medical University (SMU), Professor Yang Yinghua, Previous President of School of Nursing, SMU, and Professor Liu Xianzhang, the previous vice President of School of Nursing, for their recommending me to

enter this program and providing support throughout my study. Also, I am deeply grateful to Professor Dai Baozheng, President of School of Nursing, SMU, and Professor Wang Dawei, for validating the Chinese version of instruments and providing me support in my study.

I would like to extend my gratitude to the administrators of Nursing Department, head nurses and staff at surgical ward in Zhongshan Hospital, SMU, for their assistance in data collection for this study. I also extend my gratitude to all Hepatocellular Carcinoma patients undergone hepatectomy who participated in my study for their willingness to share information. Without their support and cooperation, this study would not have been succeeded.

Further thank is extended to China Board of New York, Inc. for providing financial support throughout the program.

My grateful appreciation is extended to my parents in law, my father, my siblings and their families, for their great support and encouragement throughout the study.

My deep thanks go to my husband Mr. Xu Min, for his understanding, encouragement, and support, which help me to accomplish my study. My very special thanks go to my little daughter, for her love and sacrifice throughout the program.
