INTRODUCTION	
Definition of Asthma	1
Inflammatory Cells and Mediators	1
Reference Drugs Used in this Study	12
Historical Background of <i>Clerodendrum petasites</i> S. Moore	15
Purpose of this Study	17
MATERIALS AND METHODS	
Animals	18
Plant Material	18
Preparation of the ethanol extract	18
Experimental Protocols	
A. Experiments <i>in vitro</i>	
1. Isolated guinea-pig tracheal strip preparation	19
2. Quantitive measurement of tracheal activity	20
3. Determination of the mechanism of bronchodilator action of the ethanol extract from <i>C. petasites</i>	22

TABLE OF CONTENTS

	PAGE
3.1 Comparison of the dose-response relationship of the ethanol extract with reference drugs on histamine- and acetylcholine-induced tracheal contraction	22
3.2 Comparison of the antagonist effect of the ethanol extract and reference drugs on the histamine-induced tracheal contraction in the presence of propranolol (β -adrenergic antagonist)	22
3.3 Determination of the blocking effect of the ethanol extract on acetylcholine-induced tracheal contraction in comparison with atropine (antimuscarinic agents)	23
 B. Experiments <i>in vivo</i>	
1. Histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pig	24
2. Quantitative measurement of bronchial activity	26
3. Methacholine-induced bronchoconstriction in pentobarbital anesthetized rat	27
4. Hippocratic screening test	28
Statistical Analysis	30
Drugs and Chemicals	30

TABLE OF CONTENTS

RESULTS	
A. Experiments <i>in vitro</i>	
1. Effect of the ethanol extract from <i>C. petasites</i> and reference drugs on histamine-induced contraction of isolated guinea-pig tracheal strip preparation	32
2. Comparison of dose-response relationship of the ethanol extract from <i>C. petasites</i> and reference drugs on the histamine-induced tracheal contraction	35
3. Comparison of the antagonist effect of the ethanol extract from <i>C. petasites</i> and reference drugs on the histamine-induced tracheal contraction in the presence of propranolol (β -adrenergic antagonist)	35
4. Effect of the ethanol extract from <i>C. petasites</i> and reference drugs on acetylcholine-induced contraction of isolated guinea-pig tracheal strip preparation	37
5. Comparison of dose-response relationship of the ethanol extract from the of <i>C. petasites</i> and reference drugs on the acetylcholine-induced tracheal contraction	41

TABLE OF CONTENTS

	PAGE
6. Comparison of the protective effect of the ethanol extract from <i>C. petasites</i> and atropine (antimuscarinic agents) on the acetylcholine-induced tracheal contraction	43
B. Experiments <i>in vivo</i>	
1. Effect of the ethanol extract from <i>C. petasites</i> and reference drugs on histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pig	43
2. Comparison of dose-response regression lines and the effective doses of the ethanol extract from <i>C. petasites</i> and reference drugs on the histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pig	46
3. Effect of the ethanol extract from <i>C. petasites</i> and reference drugs on the cumulative dose of methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	53
4. Hippocratic screening test	56
DISCUSSION	70

VITA	92

LIST OF TABLES

TABLE		PAGE
1.	Effect of the ethanol extract from <i>C. petasites</i> and reference drugs (terbutaline, aminophylline and papaverine) on histamine-induced contraction of isolated guinea-pig tracheal strip	34
2.	Effect of the ethanol extract from <i>C. petasites</i> and reference drugs (atropine, aminophylline and papaverine) on acetylcholine-induced contraction of isolated guinea-pig tracheal strip	40
3.	Effect of the ethanol extract from <i>C. petasites</i> and reference drugs (terbutaline, aminophylline and papaverine) on histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pigs	51
4.	Effect of the ethanol extract from <i>C. petasites</i> on the cumulative doses of methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	58
5.	Effect of the terbutaline on the cumulative doses of methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	60

LIST OF TABLES

TABLE		PAGE
6.	Effect of the aminophylline on the cumulative doses of methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	62
7.	Effect of the papaverine on the cumulative doses of methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	64
8.	Hippocratic screening test of the ethanol extract from <i>Clerodendrum petasites</i> S. Moore in rats	65

LIST OF FIGURES

FIGURE		PAGE
1.	<i>Clerodendrum petasites</i> S. Moore	16
2.	Experimental set for recording of tracheal contraction using isolated guinea-pig tracheal strip	21
3.	Experimental set for recording of intratracheal pressure in pentobarbital anesthetized guinea-pigs or rats	25
4.	Standard work sheet for Hippocratic screening test	29
5.	Effect of the ethanol extract from <i>C. petasites</i> , papaverine, aminophylline and terbutaline on histamine-induced contraction of isolated guinea-pig tracheal strip	33
6.	Comparison of the dose-response regression line of the ethanol extract from <i>C. petasites</i> , terbutaline, papaverine and aminophylline on the histamine-induced contraction of isolated guinea-pig tracheal strip	36
7.	Antagonistic effect of the ethanol extract from <i>C. petasites</i> , terbutaline, papaverine and aminophylline on histamine-induced contraction of isolated guinea-pig tracheal strip in the presence of propranolol (β -adrenergic antagonist)	38
8.	Effect of the ethanol extract from the plant of <i>C. petasites</i> , papaverine, aminophylline and	39

LIST OF FIGURES

FIGURE		PAGE
	atropine on acetylcholine-induced contraction of isolated guinea-pig tracheal strip	
9.	Comparison of the dose-response regression line of the ethanol extract from <i>C. petasites</i> , atropine, papaverine and aminophylline on the acetylcholine-induced contraction of isolated guinea-pig tracheal strip	42
10.	Antagonistic effect of the ethanol extract from <i>C. petasites</i> and atropine on acetylcholine-induced contraction of isolated guinea-pig tracheal strip	44
11A.	Increase in intratracheal pressure in response to the first and the second doses of histamine in pentobarbital anesthetized guinea-pigs	45
11B.	Blocking effect of chlorpheniramine on histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pigs	45
12.	Effect of the ethanol extract from <i>C. petasites</i> on the histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pigs	47

LIST OF FIGURES

FIGURE	PAGE
13. Effect of terbutaline on the histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pigs	48
14. Effect of aminophylline on the histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pigs	49
15. Effect of papaverine on the histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pigs	50
16. Comparison of the dose-response regression line of the ethanol extract from <i>C. petasites</i> , terbutaline, papaverine and aminophylline on the histamine-induced bronchoconstriction in pentobarbital anesthetized guinea-pigs	52
17A. Increase in intratracheal pressure in response to the first set (1.5, 3, 4.5 μ g) and the second set cumulative doses (3, 6, 9 μ g) of methacholine in pentobarbital anesthetized rats	54
17B. Blocking effect of atropine on the second cumulative doses of methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	54

LIST OF FIGURES

FIGURE		PAGE
18.	Effect of the ethanol extract from <i>C. petasites</i> on the dose-related methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	57
19.	Effect of terbutaline on the dose-related methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	59
20.	Effect of aminophylline on the dose-related methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	61
21.	Effect of papaverine on the dose-related methacholine-induced bronchoconstriction in pentobarbital anesthetized rats	63
