## ACKNOWLEDGMENT

I sincerely appreciate the kindness, valuable guidance and endless help of my advisor, Assoc.Prof.Dr. Yanee Pongpaibul. Specially thankful extended to my co-advisor, Dr. Tongpaan Tiamraj for his valuable suggestion on tablet production.

I am also thankful to Assoc.Dr.Jakkapan Siriyathunyalug for comments and suggestions regarding the preparation of this thesis, to the staff of the Pharmaceutical Technology Department for their helpfulness and encouragement and to Mr. Jumnong Luasup for helping me in the accident occurred during an experiment.

Appreciation is also expressed to Siam Pharmaceutical Co. Ltd. for chemicals and partial financially support on this research, to the Pharmaceutical Technology Department and the Pharmaceutical Chemistry Department for laboratory facilities.

My sincere thanks are also expressed to all fellow graduate students and my friends for supporting and encouraging me.

Finally, I would like to thank my parents for understanding, supporting and all advice. This thesis would have not been successful without them.

Kiettisak Saeew
