## ACKNOWLEDGEMENTS

I sincerely thank Mr. Pairoj Rangponsumrit, Senior Geophysicist, Manager, and Mr. Prapat Soponpongpiat, Chief Geophysicist of Arthit Asset, and their company, PTT Exploration and Production Public Co., Ltd., for giving me the opportunity to accomplish this thesis using their data and resources.

An important person for me during this work, and for whom I am very grateful for his technical supervision, is Dr. Oong Koo Youn, Consulting Geophysicist of Unocal Thailand and PTT Exploration and Production. Also, I appreciate Mr. Michael Turk, Unocal Thailand Chief Geophysicist, and Unocal Thailand for allowing Dr. Youn to work on this project.

Many thanks go to Dr. Pisanu Wongpornchai and all my teachers for their advice and assistance throughout my study.

I thank all staff members of Arthit Asset, PTT Exploration and Production, for their kind and friendly assistance during the time I worked there.

The Development and Promotion of Science and Technology Talents Project scholarship enabled me to continue my studies for my bachelor and master degrees.

Lastly, I greatly thank my loving parents, family members, and friends for providing me with support, encouragement, and help during my many years of study.

Suwimon Udphuay
