ACKNOWLEDGEMENTS

I gratefully acknowledge my indebtedness to my supervisor, Dr. Nipapan Molloy, and my co-supervisor, Dr. Robert Molloy, for their stimulation, valuable guidance and constant encouragement throughout the course of this work.

I also wish to convey my sincere thanks to Dr. Jintana Siripitayananon for her guidance and valuable suggestions concerning the mechanical property of polymer.

I am also especially grateful to Miss Montira Sriyai for her help and advice concerning the sample polymerization and to Mrs. Anodar Charuchinda who helped with the sample processing.

Special personal thanks are also due to Miss Nantarat Suebsanit for her guidance and useful suggestions concerning the various computer applications.

I would like to express my sincere gratitude to the National Science and Technology Development Agency (NSTDA) for the award of a Local Graduate Scholarship and to the Department of Chemistry, Faculty of Science, Chiang Mai University, for kindly providing me the laboratory and library facilities which made this study possible.

Last and most of all, I am indebted to my family and friends for their tender love, care and endless encouragement which has enabled me to achieve success in my postgraduate education.

Patchara Punyamoonwongsa
