ACKNOWLEDGEMENTS

No author is ever alone in writing a text, indebtedness goes beyond (the foot notes and bibliography). It is my great pleasure that I begin with thanking my advisor *Asst. Prof. Dr. Orn-anong Arquero* and co-advisors *Asst. Prof. Dr. Saisunee Liawriangrat* and *Mr Surapong Pimjun*, for their enthusiastic support and unwavering encouragement throughout my work.

My deep acknowledges to *the Office of Atomic Energy for Peace (OAEP)*, Bangkok, for providing me, the study leave from the university during the period of my study and for giving me an opportunity to pursue this research to a success.

I owe deep thanks to my sister, *Mrs Sasiphan Kaweerat*, for her love and encouragement throughout this research.

To all of the author's friends at Chiang Mai University, for their help in the laboratory and during the thesis preparation. I am grateful to my friends for their selfless help and invaluable support.

This work was financially supported in part by the Postgraduate Education and Research Program in Chemistry (PERCH), Thailand.
