ACKNOWLEDGEMENTS

I would like to express my heartfelt gratitude and appreciation to my supervisor, Assoc. Prof. Dr. Surasak Watanesk, for his kind supervision and constant encouragement throughout the course of this research project.

I also wish to express my sincere thanks to Assoc. Prof. Dr. Ruangsri Watanesk and Dr. Sunanta Wangkarn.

To Khun Pisan Kitsawatpaiboon, I am grateful for his guidance and useful suggestion concerning the HPLC technique.

I would like to express my special appreciation to Mr. Jirasak Three-prom for his unfailing encouragement throughout this research.

I would also like to take this opportunity to thank the Department of Chemistry, Faculty of Science, Chiang Mai University, for kindly providing me with the laboratory and library facilities which have made this study possible.

I gratefully acknowledge the UDC scholarship awarded to me by Naresuan University and also thank to the Postgraduate Education and Research Program in Chemistry (PERCH) for a partial financial support.

Thanks are also due to all of my friends and graduate students in the Department of Chemistry, Faculty of Science, Chiang Mai University.

Last and most of all, I am indebted to my family for their tender love, continual support and endless encouragement.
