Acknowledgements	iii
Abstract (English)	v
Abstract (Thai)	vii
Tables of Contents	ix
List of Figures	xiii
List of Tables	xiv
Chapter 1 Introduction	1
Background and Significance of the Research Problem.....	1
Purpose and Specific Aims.....	7
Research Questions.....	7
Definitions.....	7
Summary.....	8
Chapter 2 Review of Literature	9
An Overview of People with a Disability in Thailand.....	9
The Structure of Thai Society	10
Historical Status of Thai Disabled Persons.....	16
The Current Status of Thai Disabled Persons	17

TABLE OF CONTENTS (Continued)

	Page
Young Adult Male Thai with Paraplegia.....	23
Functional Change after Paraplegia.....	23
Issues of Managing and Coping with Paraplegia.....	28
The Phenomenon of Coping.....	28
Definitions and Related Terms of Coping.....	30
Factors Affecting Coping in Everyday Life.....	33
Theoretical Perspectives and Research Exploring Coping.....	51
Summary.....	66
Chapter 3 Methodology	69
Root of Grounded Theory.....	70
Process of Grounded Theory.....	75
Methods and Procedures of Study.....	82
Human Subjects Protection.....	92
Trustworthiness.....	94
Summary.....	101
Chapter 4 Findings	102
Characteristics of the Informants.....	102
Diagnosis and Characteristics of SCI treatment.....	109

TABLE OF CONTENTS (Continued)

	Page
Analysis Findings: The Theoretical Explained.....	113
Making the Best of Paraplegia.....	116
Perceived Self as “Being Ill”.....	121
Perceived Self as “Being Disabled”.....	146
Perceived Self as “Being a Disabled Person”.....	163
Summary.....	195
Chapter 5 Discussion and Conclusion.....	198
Theoretical Description.....	198
The Theoretical Model.....	199
Theoretical Process.....	201
Definitions of Constructs and Concepts.....	204
Comparison of the Findings.....	214
Theoretical Discussion.....	214
Perception of Self Alteration & Making the Best of Paraplegia.....	220
The Consequence of Making the Best of Paraplegia.....	259
Implications and Recommendations.....	261
Implications and Recommendations for Nursing Practices.....	262
Implications and Recommendations for Policy Development.....	265
Recommendations for Further Research.....	267

Learned.....

ons of the Study.....

ion.....

.....

.....

x A: Letter of Permission.....

x B: Contact Letter.....

x C: Interview Guide.....

x D: Personal Information Form.....

x E: Table E1. Summary of diagnosis and
spinal cord injury treatment characteristic

LIST OF FIGURES

Figure	Page
1 Summarizes the point on “Self” and “Human action”	72
2 The three levels of coding procedure.....	78
3 Perceived self-alteration among young adult Thai males with paraplegia.....	118
4 The basic social process of making the best of paraplegia.....	119
5 The relationship between self-perception, managing strategies, and consequences.....	120
6 The model of making the best of paraplegia of young adult Thai males.....	205

LIST OF TABLES

Table	Page
1 The concurrence of data collection and analysis.....	78
2 Summarizes the trustworthiness of the study.....	100
3 The demographic characteristics of the informants.....	106
4 The paraplegic characteristics of the informants.....	107
5 The relationships of categories to their causal condition, context, intervening condition, consequences, and the properties of categories.....	115
6 The summary of constructs and concepts in theoretical model.....	206
7 The definitions of the constructs and concepts.....	207
