| INTRODUCTION | 1 |
| Inflammation | 1 |
| Mediators of inflammation | 3 |
| Anti-inflammatory drugs | 12 |
| Experimental models | 15 |
| Historical background of <i>Ventilago harmandiana</i> Pierre | 20 |
| Purpose of the study | 23 |
| MATERIALS AND METHODS | 25 |
| Test compound | 25 |
| Experimental animals | 25 |
| Preparation of test drugs | 25 |
| Drug administration | 25 |
| Experimental protocol | 26 |
| 1. Anti-inflammatory activity study | 26 |
| 1.1 Ethyl phenylpropiolate and arachidonic acid-induced ear edema in rats | 26 |
| 1.2 Carrageenin-induced hind paw edema in rats | 27 |

| | |
|--|----|
| 1.3 Carrageenin-induced pleurisy in rats | 29 |
| 1.3.1 Exudate collection and volume determination | 29 |
| 1.3.2 Leukocyte determination | 29 |
| 1.3.3 Prostaglandin extraction | 31 |
| 1.3.4 Bioassay for prostaglandin activity using rat fundus strip preparation | 31 |
| 1.4 Cotton pellet-induced granuloma formation in rats | 32 |
| 2. Analgesic study | 37 |
| 2.1 Acetic acid-induced writhing response in mice | 37 |
| 2.2 Formalin test | 37 |
| 3. Antipyretic study | 39 |
| 4. Anti-ulcerogenic activity study | 39 |
| Preparation of rats for anti-ulcerogenic activity study | 39 |
| Method used to induce gastric lesions | 41 |
| 4.1 Ethanol/hydrochloric acid-induced gastric lesions | 41 |
| 4.2 Indomethacin-induced gastric lesions | 41 |
| 4.3 Restraint water immersion stress-induced gastric lesion | 41 |
| Evaluation of gastric lesions | 41 |
| 4.4 Pylorus ligation | 44 |
| 5. Hippocratic screen | 46 |
| 6. Acute toxicity study | 48 |
| 7. Subacute toxicity study | 49 |
| Statistical analysis | 50 |
| Drugs and chemicals | 50 |
| RESULTS | 52 |
| 1. Anti-inflammatory test | 52 |
| 1.1 Effects of PNQ-4482 and phenylbutazone on ethylphenyl- | 52 |

| | |
|--|----|
| propiolate-induced ear edema in rats | |
| 1.2 Effects of PNQ-4482 and phenylbutazone on arachidonic acid-induced ear edema in rats | 52 |
| 1.3 Effects of PNQ-4482 and aspirin on carrageenin-induced hind paw edema in rats | 54 |
| 1.4 Effects of PNQ-4482, aspirin and prednisolone on carrageenin-induced pleurisy in rats | 54 |
| 1.4.1 Pleural exudate volume | 54 |
| 1.4.2 Total leukocytes count in the pleural exudate | 57 |
| 1.4.3 PGE ₂ -like substance activity | 57 |
| 1.5 Effects of PNQ-4482, aspirin and prednisolone on the cotton pellet-induced granuloma formation in rats | 57 |
| 1.5.1 Granuloma formation and transudation | 62 |
| 1.5.2 Body weight gain and thymus weight | 62 |
| 1.5.3 Alkaline phosphatase activity | 62 |
| 2. Analgesic test | 65 |
| 2.1 Effects of PNQ-4482, morphine and aspirin on acetic acid-induced writhing response in mice | 65 |
| 2.2 Effects of PNQ-4482, morphine and aspirin on the formalin test in mice | 65 |
| 2.2.1 Early phase | 65 |
| 2.2.2 Late phase | 65 |
| 3. Antipyretic test | 69 |
| Effects of PNQ-4482 and aspirin on yeast-induced hyperthermia in rats | 69 |
| 4. Anti-ulcerogenic test | 69 |
| 4.1. Ethanol/hydrochloric acid-induced gastric lesions in rats | 69 |

| | |
|--|-----|
| 4.2 Indomethacin-induced gastric lesions in rats | 72 |
| 4.3 Restraint water immersion stress-induced gastric lesions in rats | 72 |
| 4.4 Pylorus ligation | 76 |
| 5. Hippocratic screen | 76 |
| 6. Acute toxicity study | 78 |
| 7. Subacute toxicity study | 85 |
| DISCUSSION | 94 |

LIST OF TABLES

| Table | | Page |
|-------|--|------|
| 1 | Effects of PNQ-4482 and phenylbutazone on EPP-induced ear edema in rats | 53 |
| 2 | Effects of PNQ-4482, phenylbutazone and phenidone on AA-induced ear edema in rats | 55 |
| 3 | Effects of PNQ-4482 and aspirin on carrageenin-induced hind paw edema in rats | 56 |
| 4 | Effects of PNQ-4482, aspirin and prednisolone on pleural exudate volume of carrageenin-induced rat pleurisy | 58 |
| 5 | Effects of PNQ-4482, aspirin and prednisolone on total leukocyte count of carrageenin-induced rat pleurisy | 59 |
| 6 | Effects of PNQ-4482, aspirin and prednisolone on PGE ₂ -like activity of carrageenin-induced rat pleurisy | 61 |
| 7 | Effects of PNQ-4482, aspirin and prednisolone on granuloma formation and transudation of cotton pellet-induced granuloma in rats | 63 |
| 8 | Effects of PNQ-4482, aspirin and prednisolone on body weight and thymus weight of cotton pellet-induced granuloma in rats | 64 |
| 9 | Effects of PNQ-4482, aspirin and prednisolone on alkaline phosphatase activity in serum of cotton pellet-induced granuloma in rats | 66 |
| 10 | Effects of PNQ-4482, morphine and aspirin on acetic acid induced writhing response in mice | 67 |
| 11 | Effects of PNQ-4482, morphine and aspirin in the early phase of the | 68 |

| | | |
|----|--|----|
| | formalin test in mice | |
| 12 | Effects of PNQ-4482, morphine and aspirin in the late phase of the formalin test in mice | 70 |
| 13 | Effects of PNQ-4482 and aspirin on yeast-induced hyperthermia in rats | 71 |
| 14 | Effects of PNQ-4482 and cimetidine on ethanol/hydrochloric acid-induced gastric lesion in rats | 73 |
| 15 | Effects of PNQ-4482 and cimetidine on indomethacin-induced gastric lesion in rats | 74 |
| 16 | Effects of PNQ-4482 and cimetidine on restraint water immersion stress-induced gastric lesion in rats | 75 |
| 17 | Effects of PNQ-4482 and cimetidine on the volume of gastric secretion and acidity in pylorus ligated (Shay) rats | 77 |
| 18 | Effect of PNQ-4482 on motor activity and respiratory rate in conscious rats (Hippocratic screen) | 79 |
| 19 | Effect of PNQ-4482 on righting reflex and screen grip in conscious rats (Hippocratic screen) | 80 |
| 20 | Effect of PNQ-4482 in conscious rats recorded 1 h after drug administration | 81 |
| 21 | Body weights of rats in the acute toxicity study of PNQ-4482 | 83 |
| 22 | Organ weights of rats in the acute toxicity study of PNQ-4482 | 84 |
| 23 | Body weights of rats in the subacute toxicity study of PNQ-4482 | 88 |
| 24 | Organ weights of rats in the subacute toxicity study of PNQ-4482 | 89 |
| 25 | Hematological values of rats in the subacute toxicity study of PNQ-4482 | 90 |
| 26 | Differential white blood cell counts of rats in the subacute toxicity study of PNQ-4482 | 91 |
| 27 | Blood chemistry values of female rat in the subacute toxicity study | 92 |

of PNQ-4482

| | | |
|----|--|----|
| 28 | Blood chemistry values of male rat in the subacute toxicity study of PNQ-4482 | 93 |
|----|--|----|

LIST OF ILLUSTRATIONS

| Figure | | Page |
|--------|--|------|
| 1 | Scheme of the major metabolic transformations of arachidonic acid | 9 |
| 2 | "Ngew dam" or "Khruoa plok" (<i>Ventilago harmandiana</i> Pierre, family Rhamnaceae) | 24 |
| 3 | Diagram illustrating the water displacement method for measuring rat paw volume | 28 |
| 4 | Diagram illustrating the method for carrageenin-induced pleurisy in rats | 30 |
| 5 | Experimental set for bioassay of prostaglandin by using rat fundus strip preparation | 33 |
| 6 | Diagram illustrating the method for cotton pellet-induced granuloma formation in rats | 36 |
| 7 | Diagram illustrating the method for formalin test (early phase) in mice | 38 |
| 8 | Diagram illustrating the method for formalin test (late phase) in mice | 38 |
| 9 | Diagram illustrating the method for yeast-induced hyperthermia | 40 |
| 10 | Diagram illustrating the procedure of ethanol/hydrochloric acid-induced gastric lesion in rats | 42 |
| 11 | Diagram illustrating the procedure of indomethacin-induced gastric lesion in rats | 43 |
| 12 | Diagram illustrating the procedure of pylorus ligation in | 45 |

| | | |
|----|--|----|
| | rats | |
| 13 | The standard work sheet for Hippocratic screen | 47 |
| 14 | Response of rat fundus strip to standard PGE ₂ (100 ng/ml) and to the pleural exudate of drug-treated groups obtained 3 h after intrapleural injection of carrageenin | 60 |
