## ACKNOWLEDGEMENTS

I would like to express my sincere gratitude and deep appreciation to Dr. Chadarat Duangrat, my principal supervisor for her guidance, invaluable advice, supervision, encouragement and understanding throughout the work.

I would also like to thank Associate Professor Dr. Porn-ngarm Limtrakul for her invaluable advice and support in the cytotoxic assay.

I especially thank Dr. Sunee Chunsakaow for her help and valuable suggestion in extraction and phytochemistry part.

I am deeply grateful to Mr. J. F. Maxwell for identification and collection of plants used in this study.

Many thanks to professors of The Faculty of Pharmacy at Silpakorn University and Chiang Mai University for my knowledge in Pharmacy and Pharmaceutical Chemistry.

I would also like to thank laboratory technicians of Pharmaceutical Chemistry and Biochemistry Department, Faculty of Medicine, Chiang Mai University for their help and technical support.

I also thank Chiang Mai University Graduate School and Faculty of Pharmacy for partial financial support to conduct this investigation.

I also thank the postgraduate students of Biochemistry Department, Faculty of Medicine and Faculty of Pharmacy, for the friendly help.

Finally, My heart deeply thanks are expressed to my parents for their love, encouragement, and support throughout the period of my study.

Patcharawan Tanamatayarat
