ACKNOWLEDGEMENT

I would like to express my sincere appreciation and grateful thanks to my thesis advisor, Assistance Professor Dr. Phuriwat Leesawat, for his valuable guidance, attention and encouragement throughout this study. His patience, kindness and understanding are also deeply appreciated.

I would like to express my deep appreciate thanks to Associate Professor Dr. Jakkapan Sirithunyalug for permission of using Hanseaten Single Stroke and his helpful advice. Special thanks to Associate Professor Pramote Tipduangta for his valuable suggestion.

A Special acknowledgement is extended to Department of Pharmaceutical Technology, Chiang Mai University, which provide research facilities for me.

The special appreciation is given to the Graduate School, Chiang Mai University for granting partial financial support to fulfill this study. The special appreciation is also given to all staffs and my friends in the Department of Pharmaceutical Technology for their kind assistance and encouragement.

Finally, I would like to express my infinite thanks and deepest gratitude to my parents, brothers and sister for their love, encouragement, and support throughout.

Angkana Laopongpaisan
