ACKNOWLEDGEMENTS

The author wishes to express my gratitude and deepest appreciation to Assoc. Prof. Dr. Watchara Kasinrerker, Asst. Prof. Dr. Chatchai Tayapiwatana and Assoc. Prof. Dr. Prasartporn Smitamana, thesis advisors, for their excellent guidance, very patience, continuous discussion and encouragements throughout this study. This thesis would not have been accomplished without their help.

I am also extended my grateful to Dr. Chunya Puttikhunt, my external examiner, for their valuable suggestions and valuable advice.

I would like to express my sincere thanks to Miss Waraporn Silakate, Mr. Pramoon Arooncharus and all staff member of Assoc. Prof. Dr. Watchara Kasinrerker's laboratory for their helps, kindness and suggestion.

Finally, I would like to express my special gratitude to my family for their understanding, encouragement and support throughout this study.

This work was supported by the Royal Golden Jubilee Ph.D program, the Thailand research fund and National Center for Genetic Engineering and Biotechnology (BIOTEC) of the National Science and Technology Development Agency (NSTDA), Thailand.
