# The Suitable Stability Analysis Methods for Earth Slope in Northern Thailand

SOPHANA RITTHISOM

THIS THESIS HAS BEEN APPROVED  
TO BE A PARTIAL FULFILLMENT OF THE REQUIREMENTS  
FOR THE DEGREE OF MASTER OF ENGINEERING  
IN CIVIL ENGINEERING

EXAMINING COMMITTEE

*C. Chitchai*

CHAIRPERSON

Assoc. Prof. Dr. Chitchai Anantasech

*Boonthep N.*

MEMBER

Asst. Prof. Dr. Boonthep Nanegrungsunk

*Aniruth*

MEMBER

Asst. Prof. Dr. Aniruth Thongchai

*Warakorn Mairaing*

MEMBER

Assoc. Prof. Dr. Warakorn Mairaing

*Kanji Kondo*

MEMBER

Assoc. Prof. Dr. Kanji Kondo

### Acknowledgement

The writer wished to express his great appreciation to Assoc. Prof. Dr. Chitchai Anantasech, Asst. Prof. Dr. Boonthep Nanegrungsunk, Asst. Prof. Dr. Aniruth Thongchai and Assoc. Prof. Dr. Warakorn Mairaing who gave all advice, helpful and recommendation in the thesis.

The writer also wishes to acknowledge his indebtedness to Assoc. Prof. Dr. Kanji Kondo of Mie University, Japan, who has helped to educate the writer about landslides and slope stability analysis through his helpful, advice and answers to questions over many years in both Japan and Thailand.

The writer is grateful to all technicians, officers and his Master degree colleagues of Department of Civil Engineering, Chiangmai University.

Great thanks to Dad, Mom, brother including relatives to support the expenses throughout the course.

Sophana Ritthisom
