ACKNOWLEDGMENT

I would like to thank my research advisor, Asst. Prof. Sernsak Uatrongjit, for his encouragement. My Ph.D. program is successful because of his guidance and help. I am deeply appreciative to thank Assoc. Prof. Kiti Likit-Anurucks, Assoc. Prof. Kajornsak Kantapanit and Asst. Prof. Nipon Theera-Umpon for their valuable suggestions during my study.

I also would like to thank all referees for their enormous efforts in carefully reading this dissertation.

I would like to thank Dr. Jyh-Shing Roger Jang and the MATH WORK Inc. staffs for their ANFIS source codes. I am reminiscent to Mr. Imran and Mr. Warit for their \LaTeX techniques.

I would like to dedicate this work to my father and mother for their cooperation, financial support and my life. Finally, my wholehearted gratitude goes to my fiancée for her constant support and understanding.
