## ACKNOWLEDGEMENT

I would like to express my deepest appreciation to my advisor, Dr.Praphon Kemmadamrong for his valuable advice, good suggestions, enthusiastic support and encouragement towards the completion of this thesis.

I am also indebted to committee member, Dr.Petch Pengchai , Dr.Tanongkiat Kiatsiriroat and Dr.Wanpen Wirojanagud for their great attention, good supporting and valuable recommendations throughout this study.

I am thankful to all staff members in the factory studied, especially the Facility team for their great cooperation, support, guidance and providing necessary information during my study. Sincere thanks are due to Mr.Bengt Steen and Miss Arunee Ongmongkolkul for useful comment and helpful suggestion in this study. I am also very grateful to Mr.Albert Casillas for assisting me by proofing this research. For all colleagues at Environmental major, thanks for their assistance, suggestions, encouragement, and great friendship during my study at CMU.

The financial support of this research from the Graduate school of Chiang Mai University and Department of Environmental Engineering, Faculty of Engineering, Chiang Mai University is gratefully acknowledged.

Finally, I would like to express my deep gratitude to my parents, sisters and fiancé, for their great love, support, cheer and encourage during my life.
