## ACKNOWLEDGEMENTS

First of all, I would like to thank Professor Dr. Tawee Tunkasiri who has given me the opportunity, supporting, encouragement and valuable suggestions.

It is my grateful pleasure to appreciate Professor Dr. Suthat Yoksan for his kindness, advice and comments in my Thesis.

I am also grateful to Assoc. Professor Dr. Jintana Siripitayananon and Dr. Rattikom Yimnirun for their helpful advice, comments, and suggestions.

My profound thanks convey to all the other members of Electro-Ceramic Research Laboratory for their assistance and Dr. Kamonpan Pengpat for her help in publishing the article in Journal of European Ceramics Society.

Moreover, I would like to thank Department of Physics, Faculty of Science, Mahasarakham University for allowing my study and parts of financial supports and the Ministry of University Affairs of Thailand for all financial supports.

My special thanks go to my supervisor Assistant Professor Dr. Supon Ananta, for all the supports, useful advice, assistance, suggestions, proof reading and encouragement.

Finally, I am very grateful to my family, Aumnuay Udomporn, Unchalee Udomporn and Sampan Rittidech. The love, care and supporting that I have been receiving from them.
