ACKNOWLEDGEMENT

I would like to express sincere gratitude and appreciation to my advisor Assoc. Prof. Paitoon Narongchai, for his precious guidance, valuable advice and knowledge comments through this study. This thesis would not have been completed successfully, without helps from my co-advisors, Assoc. Prof. Dr. Ampai Panthong who always suggest and comment through this study. Special thanks are extended to, Asst. Prof. Dr. Chucheepp Praputpittaya and his laboratory for guidance and training the histochemical technique. Special gratitude is also extended to my co-advisor, Assoc. Prof. Nirush Lertprasertsuk, a specialist in pathology, for her kind help and suggestion on the muscle staining results. Special appreciation to my co-advisor, Assoc. Prof. Siripun Narongchai for her suggestion through this study, understanding and encouragment. Thanks for all facilities in the Department of Forensic, Faculty of Medicine, Chiang Mai University, for excellent intensive teaching and suggestion from all staffs during the course.

I would like to express sincere thanks to Mr. Churdsak Jaikang, Miss Manee Khamenkhethran, Mr. Supawatchara Singhatong, Mr. Nattakaan Leelarungrayub, Miss Sineenart Santidherakul and Toxicology M.S. students for their kind help, understanding and friendship.

Finally, I deeply appreciate my family for their understandings and support me to reach the goal, especially, my lovely sister who doing many things for me and always give me a good advice. Also, I will keep in mind for the love and care that I received from many other people whom I did not mention here.

Benchaluk Thongchuai
