ACKNOWLEDGEMENTS

I would like to express sincere gratitude and deepest appreciation to my advisor Asso. Prof Paitoon Narongchai for his kind supervision and invaluable guidance throughout this research work. And this thesis would not have completed successfully, without helps from my co-advisor, Asso. Prof. Nirush Lertprasertsuk and Asso. Prof. Siripun Narongchai, for their suggest and supports for my works.

Special appreciation is extended to examining committee, Asso. Prof. Dr. Wichai Wongchanapai, for his valuable advice and suggestion was greatly helpful in completing this thesis.

Thanks for all facilities in the Department of Forensic Medicine, Faculty Medicine, Chiang Mai University, for concentrated teaching and suggestion from all staffs during the course that was helpful for understanding of the basic and advance in toxicology.

Thanks for all staffs in the toxicology unit, Regional Medical Center, Chiang Mai for chemical and equipment support.

I would like to express sincere thanks to Miss Benchaluck Thongchui and Miss manee Kamenkhetkran for excellent support on many aspects of my work.

Thanks for Faculty of Medicine, Chiang Mai University for fund supporting until finished this work.

I would like to extend my thanks to all toxicology students for their friendship and kindness that shared an idea and gave moral support for each other.

I would like to express sincere thanks to Mrs Montana Seang-a-roon and Miss Joyc Tsag for prove my work.

Finally, I really appreciate my mother and my brother for their tender love, and end encouragement.

Churdsak Jaikang
