ACKNOWLEDGEMENT

I am most grateful to my thesis advisors: Dr. Chusie Trisonthi, Dr. Weerachai Nanakorn and Prof. Dr. Francis Hallé for their kind guidance, support and encouragement throughout the period of this study. I am grateful to my examining committee: Dr. Kongkanda Chayamarit and Dr. Prasit Wangpakapattanawong for their kind suggestion and comments; and Asst. Prof. Paritat Trisonthi for his valuable advice and support.

I would like to thank the Royal Golden Jubilee Ph.D. Program (PHD/00126/2541), the Thailand Research Fund, for scholarship; French Embassy in Thailand for additional support to study in France; Capacity Building in Biodiversity Project (CBBP-QSBG), DANIDA, Denmark, for fieldwork grant; and Conservation and Usage of Biodiversity Project, Chiang Mai University, for additional study grant.

I would like to thank the directors, curators and staff of following institutions for their kind permission to study specimens and library facilities: Department of Systematic Botany, University of Aarhus, Aarhus (AAU), Denmark; Department of Agriculture, Bangkok (BK); Forest Herbarium, Bangkok (BKF); Chiang Mai University Herbarium, Chiang Mai (CMU); Royal Botanic Gardens, Kew, London (K), United Kingdom; Kunming Institute of Botany, Kunming (KUN), China; Laboratoire de Phanérogamie, Muséum National d' Histoire Naturelle, Paris (P), France; Xishuangbanna Tropical Botanical Garden Herbarium, Xishuangbanna (XTBG), China; and Queen Sirikit Botanic Garden Herbarium, Chiang Mai (QBG).

Sincere thanks and appreciation are also addressed to specialists for their kind checking of specimens: Dr. Kongkanda Chayamarit (Anacardiaceae, Capparaceae); Dr. I.M. Johnson and Dr. Piya Chalermglin (Annonaceae); Dr. H.J. Esser (Araliaceae); Dr. A. Barfod and Ratchada Pongsattayapipat (Arecaceae); Prof. Dr. Thawatchai Santisuk (Bignoniaceae); Dr. Weerachai Nanakorn (Combretaceae); Dr. G. Staples (Convolvulaceae); Dr. P. Wilkin and Cherdasak Thapyai (Dioscoreaceae); Dr. Chamlong Phengklai (Ebenaceae, Sterculiaceae); Santi Watthana (Ericaceae, Orchidaceae); Dr. I.C. Nielsen (*Archidendron*, *Entada*, Fabaceae); Pranee Palee (Gesneriaceae); Dr. Somran Suddee (Lamiaceae); Piyakaset Suksathan (Marantaceae, Pteridophytes); Surangrath Inthamusika (Orchidaceae); Monton Norsangsri (Rhamnaceae, Poaceae); Prof. Dr. C. Puff (Rubiaceae); Voradol Chamchumroon (*Ixora*, Rubiaceae); Dr. I. Schauzer (*Ophiorrhiza*, Rubiaceae); Charun Maknoi (Zingiberaceae); Prof. Puangpen Sirirugsa (*Hedychium*, Zingiberaceae); Pramote Triboun (*Zingiber*, Zingiberaceae).

I am indebted to the staff of Queen Sirikit Botanic Garden: Ratchada Pongsattayapipat, Santi Watthana, Charun Maknoi, etc.; of Biology Department, Chiang Mai University and Doi Phu Kha National Park for field assistance, encouragement and help in various ways; Ratchuporn Sapanuchat, Soraya Klankoom and Bunnarak Puntaroth for line drawing; Ratchada Pongsattayapipat, Pasakorn Kaewket, Ratchuporn Sapanuchat and Rapin Kongtrakul for technical assistance; and Duangjan Wuttisarn for Doi Phu Kha map.

I would like to thank Head of Doi Phu Kha National Park: Mr. Witthaya Hongviengchan (1998-2000); Mr. Anan Sornnay (2000-2002) and Mr. Sakolsak Vachiranuwat (2002-2004) for their kind support of the study.

I wish to express my sincere thanks to Assoc. Prof. Thaipesriniwati Bhakdikul for her great hospitality offering the accommodation in Paris, France.

Special thanks to Prof. Ph. Morat, Dr. Th. Deroin, Dr. J. Vidal and Madame, Dr. D.D. Tirvengadam and Dr. S. Hul for their support during the research at Laboratoire de Phanérogamie, Paris; and Dr. Somran Suddee for his encouragement and help during the times at Kew, London.

I am grateful to Chiang Mai University for institutional support and Queen Sirikit Botanic Garden for herbarium and library facilities and for permitting me to carry out my study.

Finally, I thank Supara Srisanga for her encouragement and help throughout this study.

Prachaya Srisanga
