ACKNOWLEDGEMENTS

I am grateful most to express my deep appreciation and sincere gratitude to my supervisor, Assoc. Prof. Dr. Nuansri Rakariyatham for her supervision, thoughtful guidance, encouragement and constant inspiration through the course of this research. It is my grateful please to appreciate Assist. Prof. Dr. Hataichanoke Niamsup and Dr. Lalida Shank, my co-advisors, for their helpful advise suggestion and proof reading.

I am grateful to the Thailand Research Fund and Mr. Precha Kovitaya, the president of Lanna Product Co., Ltd. for financial supports of my research work. I also would like to thank Faculty of Medical Technology, Chiang Mai University for supporting the expense during my Ph. D. course.

A very special thanks is expressed to my beloved Dad (Prof. Dr. Siddhi Butr-indr), Mom (Orapin), younger brother (Rin), Liew and relatives for their tender love, understanding and endless encouragement which has enabled me to my Ph. D. study.

Butr-Indr B.
