ACKNOWLEDGEMENTS	iii
ABSTRACT	iv
บทคัดย่อ	vi
LIST OF TABLES	x
LIST OF ILLUSTRATIONS	xi
CHAPTER 1 INTRODUCTION	1
1.1 Location of the study area	1
1.2 Purpose and scope	3
1.3 Methodology	3
1.4 Previous investigations	3
1.4.1 Geological setting	3
1.4.2 Hydrogeological characteristics	4
1.4.3 Groundwater vulnerability in Thailand	4
CHAPTER 2 PHYSICAL ENVIRONMENT	6
2.1 Geographic setting	6
2.1.1 Topography and Geomorphology	6
2.1.2 Meteorology	9
2.1.3 Soil and land use	11
2.2 Geological setting	16
2.3 Hydrogeological setting	18
2.3.1 Hydrogeology	18
2.3.2 Water resources	21
2.3.3 Pumping test	25
2.4 Reconnaissance field observation	28
2.5 Origin of groundwater	36
CHAPTER 3 THE DRASTIC ANALYSIS	42
3.1 Groundwater vulnerability map and DRASTIC method	42
3.2 Parameters and database design	49
3.3 Data processing	49
3.3.1 Depth to water table	50
3.3.2 Net recharge	50
3.3.3 Aquifer media	50
3.3.4 Soil media	50
3.3.5 Topography	50
3.3.6 Impact of vadose zone	51
3.3.7 Hydraulic conductivity	51

	Page
CHAPTER 4 GROUNDWATER VULNERABILITY MAP OF PHUKET ISLAND	52
4.1 Depth to water table	52
4.2 Net recharge	52
4.3 Aquifer media	52
4.4 Soil media	52
4.5 Topography	53
4.6 Impact of vadose zone	53
4.7 Hydraulic conductivity	53
4.8 DRASTIC analysis of Phuket island	53
4.9 Impact of the tsunami disaster to groundwater in Phuket island	65
CHAPTER 5 CONCLUSIONS AND RECOMMENDATIONS	71
REFERENCES	71
APPENDICES	76
Appendix A	77
Appendix B	96
VITA	117

LIST OF TABLES

Table		Page
Table 2.1	Summary of meteorological data of Phuket island.	9
Table 2.2	Average annual rainfall (in mm) at four meteorological stations during 1964 to 2003.	10
Table 2.3	Average permeability data.	12
Table 2.4	Soil groups based on permeability of soil types.	12
Table 2.5	Existing land use in the year 1987.	14
Table 2.6	Summary of aquifers characteristics of Phuket island.	20
Table 2.7	Hydrogeological investigations.	25
Table 2.8	Data of observation wells.	25
Table 2.9	Depth to water table in 73 shallow groundwater wells.	29
Table 2.10	The stable hydrogen and oxygen isotopic data of 31 collected water samples.	38
Table 3.1	The seven thematic maps required for the DRASTIC model.	43
Table 3.2	Assigned weights for factors in generic DRASTIC.	44
Table 3.3	Evaluation of the depth to water table factor.	44
Table 3.4	Evaluation of the net recharge factor.	45
Table 3.5	Evaluation of the aquifer media factor.	45
Table 3.6	Evaluation of the soil media factor.	45
Table 3.7	Evaluation of the topography factor.	46
Table 3.8	Evaluation of the impact of the vadose zone media factor.	46
Table 3.9	Evaluation of the hydraulic conductivity factor.	46
Table 3.10	Suggested national color code for DRASTIC index ranges.	47
Table 3.11	Groundwater assessment for developments that require consent.	48
Table 3.12	Assigned weights for DRASTIC features.	49
Table 4.1	The DRASTIC indices of Phuket island.	54
Table 4.2	Range, rating, and average areas of groundwater vulnerability map by DRASTIC method.	62

LIST OF ILLUSTRATIONS

Figure	Page
Figure 1.1 Location map of Phuket island.	2
Figure 2.1 Topographic map of Phuket island.	7
Figure 2.2 Photographs of (a) landform, and (b) geomorphologic units of Phuket island.	8
Figure 2.3 Average rainfall over the past 10-year (1994-2003) at Phuket town station.	11
Figure 2.4 Soil types map of Phuket island.	13
Figure 2.5 Land use and land cover map of Phuket island.	15
Figure 2.6 Geological map of Phuket island.	17
Figure 2.7 Hydrogeologic map of Phuket island.	19
Figure 2.8 Watershed map of Phuket island.	22
Figure 2.9 Map showing old tin mine pits of Phuket island.	23
Figure 2.10 Groundwater yield map of Phuket island.	24
Figure 2.11 Location map of the pumping test sites.	27
Figure 2.12 Map showing the location of water sampling sites.	31
Figure 2.13 Photographs of shallow dug-well.	32
Figure 2.14 Photographs of small natural streams.	32
Figure 2.15 Photographs of old tin mine pits.	33
Figure 2.16 Photographs of the Bang War Dam.	33
Figure 2.17 Photographs showing water contaminations.	33
Figure 2.18 Contour map of the depth to water table from June to July, 2004.	34
Figure 2.19 Contour map of the depth to water table.	35
Figure 2.20 Plot of δD - $\delta^{18}O$ for Thailand meteoric water baseline and Global meteoric water baseline.	39
Figure 2.21 Plot of δD - $\delta^{18}O$ of groundwater, rain water, and surface water.	40
Figure 4.1 Depth to water table map of Phuket island.	55
Figure 4.2 Net recharge map of Phuket island.	56
Figure 4.3 Aquifer media map of Phuket island.	57
Figure 4.4 Soil media map of Phuket island.	58
Figure 4.5 Topographic map of Phuket island.	59
Figure 4.6 Impact of vadose zone map of Phuket island.	60
Figure 4.7 Hydraulic conductivity map of Phuket island.	61
Figure 4.8 Groundwater vulnerability map of Phuket island.	64
Figure 4.9 Map showing the source of the tsunami on 26 December 2004 that is located at 3.298°N, 95.778°E.	66
Figure 4.10 Map showing six provinces in the Andaman coast affected by the tsunami disaster.	66
Figure 4.11 Schematic diagram showing the possible effects of the tsunami on coastal groundwater systems.	67
Figure 4.12 Map showing the impact on groundwater condition by tsunami	67
Figure 4.13 Map showing new drilled wells and rehabilitating wells in six provinces along the Andaman coast affected by the tsunami.	68
Figure 4.14 Photographs of Rehabilitating groundwater well	69
Figure 4.15 Map of Phuket island showing the groundwater zone affected by the tsunami.	70
