ACKNOWLEDGEMENTS

I would like to express a great deal of gratitude to Professor Dr. Tawee Tunkasiri, my supervisor for his helpful guidance, persistence and encouragement throughout all my graduate studies. Especially, his kindly help and willpower which keep me pass my hard time and never let me down.

I am also grateful to Associate Professor Dr. Jerapong Tontrakoon for his kindness and valuable suggestions.

I would like to thank my thesis committee members, Associate Professor Dr. Narin Sirikulrat and Assistance Professor Dr. Kingkeaw Sirivitayakorn.

Also I would like to thank Professor Dr. Suthat Yoksan for his encouragement, advice and assistance in my thesis.

I would like to acknowledge the Royal Golden Jubilee (The Thailand Research Fund) for financial supporting of this project, Department of Physics, Faculty of Science, Chiang Mai University and Institute for Materials Research (IMR) at Leeds University for their grateful acknowledgement.

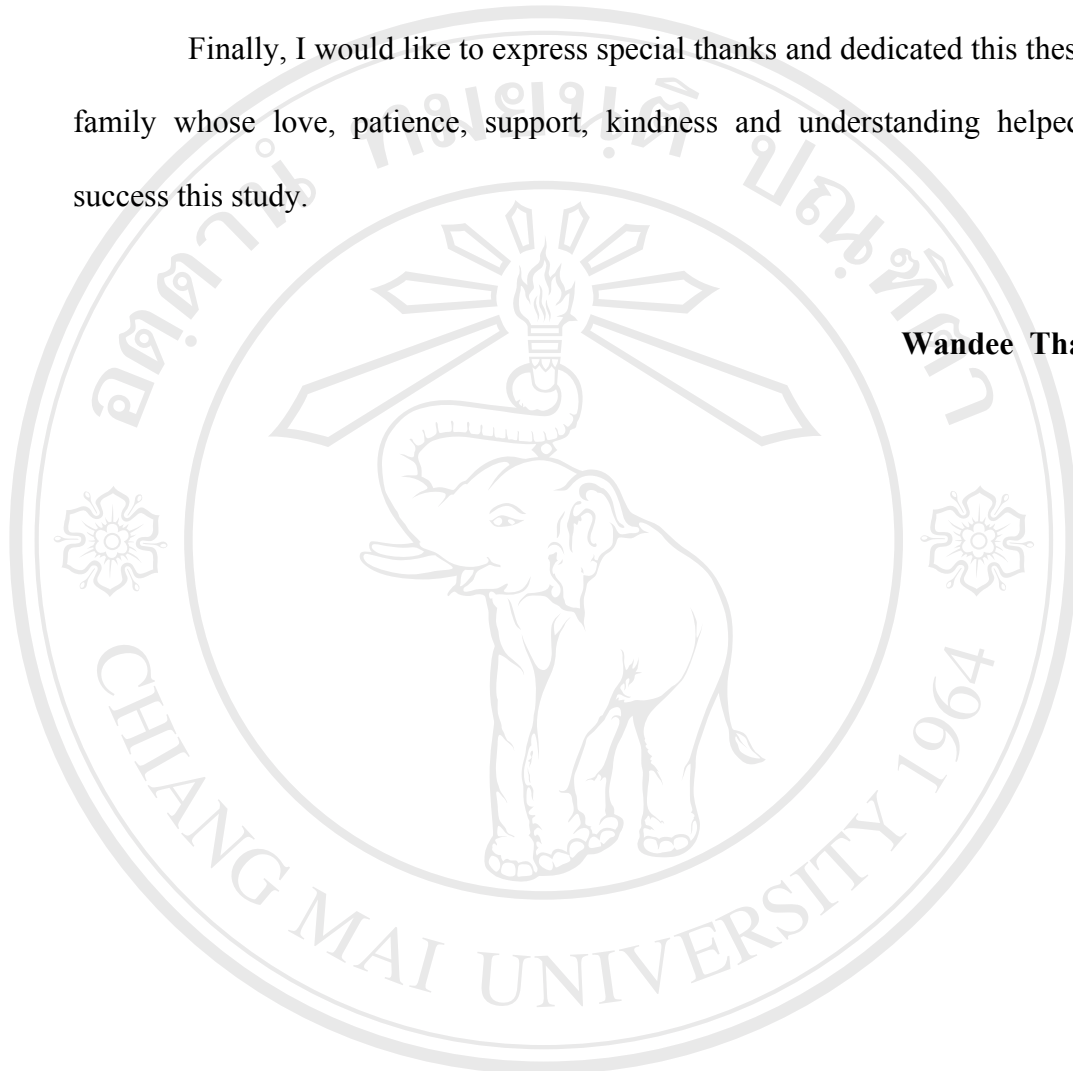

Furthermore, express my sincere thanks to Dr. Wim Nhuapeng, Dr. Kamonpan Pengpat, Dr. Arnon Chaipanich and Mr. Suwit Chaisupan for their kindly help and valuable suggestion.

Thanks also are given to my friends, Miss Anocha Munpakdee, Miss Duangpon Leksawat, Miss Wandee Onreabroi, Mr. Weerapong Sungwan,

Mr. Krengsak Aodton and everybody in Materials Science Research Laboratory for their available helps.

Finally, I would like to express special thanks and dedicated this thesis to my family whose love, patience, support, kindness and understanding helped me to success this study.

Wandee Thamjaree
